WHITE STAR LINE HELD BACK NEWS

Witness Says They Withheld Information About Disaster 12 Hours.

REFORMS TO FOLLOW INQUIRY

J. B. Ismay Says He Will Have the Great Liners Equipped With More and Better Life-Saving Appliances

Washington, April 30.—More lifeboats on trans-Atlantic liners, an equipment of rafts that automatically would float clear of a sinking vessel and the construction of great passenger steamers with double hulls and extended water-tight compartments—all these reforms, it was indicated today before the Senate committee investigating the Titanic disaster, would follow in the immediate future.

J. Bruce Ismay, president and manager-director of the International Mercantile Marine Company, told the committee that, in his opinion, this should be done. He promised to take up the question with the constructors of the big liners as soon as he returned to England.

The head of the powerful shipping combination shared interest in today's hearing with E. J. Dunn, a New York importer.

Mr. Dunn proved a recalcitrant witness for, after telling of information he had received to the effect that the White Star Line officials had received positive information of the Titanic disaster 12 hours before they gave it out, he refused to give the name of his informant.

Senator Smith insisted upon knowing the name of the person responsible for the statement. Dunn said he had received it in confidence and had pledged himself not to divulge the name. Summarily dismissed from the stand in the charge of an assistant sergeant-at-arms of the Senate the witness spent most of the morning on the long distance telephone endeavoring to be absolved from his pledge.

As a result of Dunn's testimony, Senator Smith dispatched two officers to New York to interrogate the officials of the Western Union Telegraph Company by whom was employed the man who was said to have originally made the statement. Late in the day he learned that the officers were having trouble in getting at the facts. As a result he announced that he possibly would go to New York tomorrow and conduct the investigation himself.

The hearing today came to an abrupt end when Senator Smith suddenly announced that the committee would recess until Friday. This, he said, was necessitated because the Senate Commerce Committee, to which the members of the Titanic investigating committee belong, was completing its work on the rivers and harbors appropriation bill. It was desired, he said, that all members of the committee be present.

Before the sub-committee meets again it may decide to go to New York to hear other surviving passengers in an effort to clear up some discrepancies in testimony.

Most of the Titanic's officers and crew who were here left today for New York to proceed for their homes Thursday.

J. Bruce Ismay, managing director of the International Mercantile Marine, owners of the lost liner, was recalled to the witness stand and put through the last searching examination.

Mr. Ismay indignantly denied that he or any representative of his company had attempted to re-insure the Titanic between the time she went down and the hour the real news of the disaster became public. He asserted that a wireless message which he directed to Vice President Franklin from the Carpathia on Monday morning, April 15th, did not reach that official until Wednesday, the 17th. Mr. Ismay said the Titanic was not a "speed boat" but had been constructed under orders given by him to make her the biggest and best equipped vessel afloat. No cost limit had been set.

"How did it happen that the Titanic had only 20 lifeboats?"

"That was a matter for the builders."

"In view of this experience you have just gone through do you not think it would be better to have the number of lifeboats required on ships based on passenger capacity instead of tonnage?"

"I think," said Mr. Ismay, "in view of this catastrophe that the whole question of life-saving appliances and devices should be carefully gone into to determine just what should be done."

"If the Titanic had carried double or treble the number of lifeboats would there have been more lives saved?" asked Senator Smith.

"Undoubtedly."

"Are you willing to admit that you are in favor of so increasing the number of lifeboats?"

"Perfectly. I have given instructions already that none of our ships shall leave port without boats sufficient to care for all the passengers. In increasing the number of lifeboats we probably shall have to make changes in the construction of the ships. As

SIMMONS OPENS TARIFF FIGHT

Senator in Charge of Democratic House Measure, Speaks in Favor of Bill—Taft Charged With Reaction.

Library of Congress

Washington, April 30.—The tariff fight in the Senate opened today when Senator Simmons, in charge of the Democratic House measures, made the opening speech in support of the House metal bill.

Senator Simmons criticised President Taft for his refusal to sign the tariff bills of the last session and declared that the President's determination not to sign any tariff bills previous to action by the Tariff Board was an impeachment of the competency of Congress and "reactionary to the last degree." The metal bill probably will be before the Senate at least two weeks.

In addressing himself to the bill Mr. Simmons said in part:

"The bill under consideration deals only with the metal schedule, and is one of a series of schedule bills, upon which the Senate will be called to act at this session. It reduces the average rate of duties on metals from 35 per cent., the present law, to about 22 per cent., placing the duties on a substantial revenue basis, and allowing reasonable competition with foreign goods within the zone where competition is not made impossible by the cost of transportation. In addition, it places on the free list iron and zinc ore, cotton tin, wire for fencing, and baling; nails, sewing machines, typewriters and other articles. The value of these articles imported last year was $7,628,605, and the duties proposed to be remitted amounted to $600,582.

"Aside from the reduction of duties, the most important difference between this bill and the Payne-Aldrich law is in the method of levying duties. Under existing law, the duties are either specific, or a compound of specific and ad valorem. Under the proposed law, the duties are ad valorem. Taxes are to be assessed on the value—while at present specific taxes, assessed on the basis of weight, enter largely into the law.

"These relative merits of these two systems have long been a subject of controversy; objections have been urged to both systems. A specific duty which affords no bar to importations when prices range high, might be prohibitive when prices fall low, thus cutting off revenue.

"Where protection is the primary purpose, specific duties are naturally imposed; but where a tariff for revenue is intended, ad valorem duties are more suitable. These are objections to each system based on administration; imports may be undervalued, while under specific duties, the government has been swindled, by underweighing, by the sugar trust, and in other cases, as well.

"These objections—of possible undervaluation—apply less to the iron and steel schedule than to any other, because the value of these commodities have been standardized and we have full information of them. Capable administration by efficient offices will minimize these objections; and every objection that can be urged against either a specific duty, and ad valorem duty, applies against a duty compounded of both of them, and the present law is literally saturated with compound duties. The ad valorem system is easier understood, and freer from objections, than specific duties, and it is free from the injustice, inequality, and unfairness of assessing an article for taxation as the basis of quantity or weight, without reference to its value.

The Demand for Reduction.

"Both parties in 1908 demanded tariff reduction. Feigning to redeem its pledge, the Republican party in 1909 passed the Payne-Aldrich bill, which gives but little relief to the people, and took from the tariff beneficiaries but little they regarded as worth retaining. It was, and is, a matter of dispute whether or not it was a downward revision. The people repudiated it and elected to the House of Representatives a party pledged to reduce the tariff to a competition basis. Confronted with this verdict, the opponents of tariff reduction are hiding their opposition behind the pretense that Congress cannot safely legislate without the information and advice of the Tariff Board. The President suggested the schedule plan at the special session. The Democratic House followed the President's suggestion, and sent him a number of schedule bills, making moderate reductions, with revenue duties sufficiently competitive, but high enough to cover the difference between labor cost here and abroad, and giving the American producer every opportunity to supply the home market consistent with the rights of the consumer and compatible with the revenue needs of the government.

The President disapproved every one of these bills, taking refuge behind the Tariff Board.

"That was the first time the Executive ever assumed to impeach the competency of the legislative branch of the government to perform its functions and duties under the Constitution. It was, and is an attack upon the foundation principle of our representative government. If the justice and wisdom of the representatives of the people must wait on the report of a board selected by the President, our theory of government is unsound in its most essential quality. And now when the right of the people to rule is being most insistently asserted, and to take the initiative, the attitude of the President is a startling answer to the demands of the people, and is reactionary to the last degree.

"When the Payne bill was being considered, no such reason was given

(Continued on Page Eight.)

HOT FIGHT IN BAY STATE PRIMARIES

Roosevelt and Taft Vote Is Almost Equal in Massachusetts.

CLARK HAS LARGE MAJORITY

At a Late Hour Teddy Was Leading the President and Champ Clark Was Ahead of Gov. Wilson by About Two to One.

Boston, Mass., April 30.—Returns from Presidential primaries held throughout the State today, were so incomplete at midnight that it was impossible to say whether President Taft or Colonel Roosevelt had captured the majority of the 36 delegates from Massachusetts to the National convention. Returns from 204 out of 1,080 precincts gave Colonel Roosevelt 11,235; President Taft 10,333 and Senator LaFollette, 204. A majority of the Congressional districts reported that meagre returns at that hour appeared to favor Colonel Roosevelt.

In the State at large the preference vote for the precincts heard from gave Colonel Roosevelt 902 piurality, but his leading candidates for delegates had 11,650 and Senator Crane, who headed the Taft candidates, only 8,851.

The Democratic vote in the 204 precincts gave Clark 6,555 and Wilson 3,083, as to preference.

Republican voters of Boston, not including the vote of one precinct (Hyde Park) declared their preference to President Taft by 11,012 to 10,242 for Colonel Roosevelt. Senator LaFollette received only 250 votes.

Without Hyde Park, Boston Democrats expressed their preference for Speaker Clark, he receiving 13,804, and Governor Wilson 5,848. The Republican vote in Boston and in many other sections of the State was heavy, but the Democratic voters as a whole did not manifest great interest in the primaries.

Contest Very Close.

Boston, Mass., April 30.—The contest in the Presidential primaries today for the 36 Massachusetts delegates to the Republican National Convention far exceeded in interest that for control of the Democratic delegation to Baltimore. Early returns showed that four Republican voters went to the polls to one Democrat.

The race between President Taft and Colonel Roosevelt, which on the showing of the preference of voters, was a neck and neck affair, for several hours absorbed so much attention that the long lead of Speaker Clark over Governor Woodrow Wilson was almost forgotten.

President Taft carried Boston, exclusive of Hyde Park, by more than 500, but ran behind in the small towns that had reported up to 10 P. M. In these small towns, together with a number of wards in the cities of North Adams, Haverhill, Newburyport, Lynn and Woburn, the vote stood Roosevelt 6,468, Taft 5,355. These same cities and towns gave Baxter, who headed the Roosevelt group of delegates, 6,564 to 4,537 for Senator W. Murray Crane, who led the Taft group.

An early canvass of the 14 Congressional district was not satisfactory, owing to meagre returns.

In the First district in 23 out of 70 small towns Crane had 386 to Baxter's 334. This is Senator Crane's home district, and the election of the two Taft delegates was conceded by Roosevelt leaders in the evening.

In the Second district, 12 out of 47 towns gave Crane 432 and Baxter 399, with a similar lead for the Taft men over the Roosevelt district candidates.

In the Third, two small towns out of 21, with nothing heard from Worcester, gave Baxter 227, Crane 189.

In the Fourth district the Roosevelt delegates had a margin of 774 to 433, from six out of 72 election precincts, while in the Fifth two small towns showed a slight lead for the Roosevelt men.

Sixth district reports from two cities and five towns out of five cities and 18 towns, gave Baxter 2,458; Crane, 1,915, and a similar margin in favor of the Roosevelt district candidates.

Roosevelt gained a lead in the Seventh district by carrying the city of Lynn.

In the Eighth district nine of 11 precincts showed Roosevelt and Taft running even on the district delegates.

The Roosevelt leaders claimed the Ninth and Tenth districts comprising two-thirds of the Boston wards while in the Eleventh, covering the Back Bay section, and termed by Colonel Roosevelt as the "silk stocking" district, the Taft leaders announced early in the evening that they were in control.

In the Thirteenth district the Taft delegates had a slight lead, while in the 14th, comprising Plymouth and Banrstaple counties, the Roosevelt delegates had a lead at 10 P. M. of nearly 2 to 1.

At the Roosevelt headquarters there

(Continued on Page Eight.)

UNDERWOOD WINS IN FLORIDA

Early and Very Incomplete Returns From Presidential Primary Elections Show A Substantial Lead for Him

Jacksonville, Fla., April 30.—Returns from the Presidential preference primary held in this State today with Woodrow Wilson and Oscar Underwood as the only participants, were meagre at midnight. Few precincts had been reported complete, but these and the vote of other precincts as far as counted indicated that Underwood was leading by a fair majority. The Florida Times-Union, in its early editions, claimed the State for Underwood by a majority of about 7,000.

The ballot in today's primary was more than two feet in length and in addition to the Presidential candidates, carried the names of delegates and State officials from Governor down, who are to be elected. Tests in counting the ballots showed that it takes four to six minutes to count one vote. Anything like complete returns of the vote are not expected until late Wednesday night or Thursday.

In the contest for Governor indications are that Park Thrammel and Cromwell Gibbons are running a close race.

Three to Five Vote Indicated

Tampa, Fla., April 30.—The Tribune says: At 9 o'clock the count in the Presidential preference primary in this city shows nearly 3 to 5 for Underwood over Wilson. Partial returns from some of the smaller precincts in South Florida indicate a substantial majority for Underwood.

Both Sides Claim Victory

Jacksonville, Fla., April 30.—Rains today resulted in light voting in the Presidential preference primary in this State. The polls throughout the State closed at 6:30 o'clock tonight and owing to the complicated ballot returns will be slow coming in. Headquarter officials for Wilson and Underwood, the only Presidential candidates whose names appeared on the ballot, are claiming the State for their re-

Tampa, Fla., April 30.—Incomplete returns from eight counties in South Florida give Underwood 2,116; Wilson 957.

Key West, Fla., April 30.—About 1,800 votes were cast in Monroe county today in the Presidential primary. At midnight the count stood: Underwood 336; Wilson 43.

Orlando, Fla., April 30.—Only one-fourth of the vote in this city in today's primary had been completed at midnight, the figures standing Underwood 72; Wilson 54. Scattering returns from this (Orange) county indicate a majority for Underwood.

ADVANCE UNDERWAY

Orozco Will Soon Be In Striking Distance of Federals

At Rebel Front, Escalon, Mexico, April 30.—The southern advance by the rebel army is now well underway. Indications are that within three or four days Orozco will be within striking distance of the Federals near Torreon. Scouts report that Huerta's men appear to be preparing only for defense.

Not only has the advance begun, but it is said that Torreon is being menaced from the south and west by rebels. Rebel leaders believe that the capitulation of Torreon and its occupation by the Liberal forces is but a matter of days.

They hope to destroy utterly the Federal army under General Huerta. The entire rebel force is wll supplied with ammunition and has ample food and forage for men and horses.

OUTLINES

Georgia will hold its first Presidential preference primary today and the contest between Wilson and Underwood is expected to be close.

A suit to dissolve the so-called Harvester Trust was filed in the United States District Court at St. Paul, Minn., yesterday by the government.

Rapid progress was made in the trial of Floyd Allen at Wytheville, Va., yesterday, only four more talesmen being needed to complete the jury. Sidna Allen, the leader of the outlaw clan was seen near Mount Airy yesterday.

E. J. Dunn, a New York importer, testified before the Senate committee investigating the Titanic disaster yesterday that the White Sar Line received positive information of the catastrphe 12 hours before the news was given out to the public.

Early returns from the primary election in Massachusetts yesterday showed that the vote between Roosevelt and Taft was very close and that Clark had defeated Wilson by about two to one. At midnight Roosevelt was leading the President.

Early and very incomplete returns from the Presidential primary elections in Florida yesterday tended to show that Oscar Underwood had defeated Woodrow Wilson. Both sides claimed the victory and complete returns will not be available until tonight.

The cableship Mackay-Bennett, having on board 190 bodies of victims of the Titanic disaster, arrived at Halifax, N. S., yesterday. The town was shocked by the announcement of the captain of the ship that 57 bodies previously identified had been cast again into the sea.

New York markets: Money on call steady, 2 3-4 to per cent. Spot cotton closed quiet, 10 points higher. Flour steady. Wheat, spot easy; No. 2 red 1.20 1-2, elevator, export basis and 1.23 1-4 f.o.b. afloat. Corn, spot st

SEEK TO DISSOLVE HARVESTER TRUST

Government Officials File Suit Against Great Machinery Corporation.

CLIMAX OF A LONG INQUIRY

Petition Asks That Trust's Products be Barred From Inter-State Commerce—Many Charges Against Defendants.

St. Paul, Minn., April 30.—Suit against the Internatitnoal Harvester Company, charging it with being a monopoly in restraint of trade, and asking that it be dissolved, was filed by the government in the United States District Court here today.

In a petition in equity, this $140,000,000 corporation, popularly called the Harvester Trust, is declared to exist in violation of the Sherman law.

To accomplish the disintegration of the so-called trust, the government asks the court to issue injunctions to bar from inter-State commerce the products of the International Harvester Company or the International Harvester Company of America, its selling agency. The appointment of receivers to "take charge of the property and wind up the business if the court should be of the opinion that the public interests would be better served thereby," is suggested.

The filing of the suit came as the climax of five years of investigation by the government. Lately the case has figured prominently in political discussion between President Taft and Col. Roosevelt, regarding certain instructions which Mr. Roosevelt, while President in 1907, gave to his Attorney General, Charles J. Bonaparte, concerning prosecution of the concern. That feature of the case was recently before the Senate.

In brief, the government charges the Harvester Company with being a combination in restraint of trade, monopolizing or attempting to monopolize the manufacture and sale of harvesting machinery. It is alleged that the company has advanced the prices of these articles "to the grave injury of the farmer and the general public," and is extending its business into all lines of agricultural implements with the purpose of monopolistic control.

The government alleges that the International Harvester Company controls at least 90 per cent. of the trade in the United States in harvesters or grain binders; 75 per cent. of the mowers, and more than 50 per cent. of the binder twine. There are only three or four manufacturers of harvesting machinery in the United States other than the International Harvester Company, the petition says. These, it is added, are comparatively small, and as their business does not embrace the entire United States, in many sections of the country the International Harvester Company has a complete monopoly of harvesting machinery. Considering agricultural implements of every kind, other than harvesting lines, the petition declares that the output of the alleged trust amounts to over 30 per cent. of the whole.

The government contends that the corporation has eliminated competition by securing control of a great majority of the retail implement dealers in the United States who are made their exclusive sales agents. The petition says:

"The opportunities for any new competitors are constantly being closed by the defendants in all lines of agricultural implements; the agencies for distribution, the retail implement dealers and others are rapidly coming under their undisputed control and unless prevented and restrained, their complete unchallenged dominion of every branch of trade and commerce in agricultural implements of all kinds may be confidently expected at an early date."

The government charges that the defendants have absorbed competing companies, but concealed their ownership, permitting them to be advertised "as wholly independent and without connection with them, the 'trust' or any 'combination', intending thereby to mislead, deceive and defraud the public and more effectually cripple existing competitors and keep out new ones."

The bill contains these charges:

"Defendants have resorted to unfair trade methods; have made inaccurate and misleading statements concerning rival machines or concerning the credit of competitors; have by misrepresentations sought to induce competitors' agents and dealers to abandon them, and in divers unfair ways have endeavored to destroy them and for the purpose of destructive competition have reduced prices of their machines in some localities below the cost of production and distribution, while keeping prices up in other localities.

"Defendants have systematically bought up patents upon harvesting machinery, tools and implements, and acquired all new inventions therein, in order thereby more effectually to perpetuate the combination and monopoly."

The following corporations and individuals are mentioned as defendants in the petition:

International Harvester Company.
[illegible] Harvester Company of [illegible] and George

DISASTER'S CLOSING CHAPTER

The Mackay-Bennett Arrives With Titanic's Dead—57 Identified Bodies Had to Be Cast Again Into the Sea

Halifax, N. S., April 30.—The cableship Mackay-Bennett which came with 190 of the White Star liner Titanic's dead into Halifax today, first cast gloom over the city by her mere presence as a funeral ship, then sent a shock through those waiting here for bodies with the announcement of her commander that 57 of those reported by wireless as identified had of necessity been cast again into the sea.

Yet none, not even the few here whose friends or relatives had thus been recommitted to the Atlantic, expressed any criticism of Captain Lardner's action, believing him sincere in his explanation that lack of space on board, shortage of embalming material and the mutilation of bodies was solely responsible for his course.

That there was no favoritism shown in the re-burial, that is, that the bodies of prominent persons were not kept aboard to the exclusion of the more humble, is indicated by the White Star Line's announcement that among those bodies sunk again was that of George D. Widener, the Philadelphia capitalist. Although this appears to be a mistake in that Mr. Widener's son, now here, believes from Captain Lardner's description that the body was that of his father's valet, the name Widener stands on the official list of re-buried as issued by the White Star Line today.

The one great hope held out to the bereaved tonight was the fact that there lay stretched in the rough pine coffins in the morgue 60 bodies for which there were no claimants. By morning all will have been prepared for close scrutiny and persons who found only bitter disappointment in the death house today, will go back tomorrow prepared to exhaust every resource before turning homeward.

A majority of those cast again into the sea were members of the Titanic's crew and second and third-class passengers.

Eliminating Mr. Widener's name from the list there remains, so far as can be checked up from the data here, the name of only one first-class passenger re-committed. He was Frederick Sutton, of Philadelphia.

Reginald Hale, was among the second cabin passengers.

Perhaps never was an occasion so fraught with gruesome aspects, marking a closing chapter in the greatest sea disaster in history, attended with more respectful silence and lack of morbid curiosity than was the docking of the Mackay-Bennett today. Not half a dozen of those actually concerned visited the pier proper and the general public contributed not more than 200. They stood in silence overlooking the terrace into the navy dock yard 300 yards away. They could see nothing but the upper structure of the Mackay-Beunett, tents housing the coffins and a canvas lane under which the dead were being carried to the long file of undertakers' wagons for transfer to the morgue. It was nearly 4 o'clock when the claimants of bodies began to arrive there by twos and threes. Nicholas Biddle, of Philadelphia, who accompanied Vincent Astor here in a private car went alone to identify the body of Colonel Astor and it was the first prepared for removal to New York.

The body of Isidor Straus a few moments later was turned over to Maurice Rothschild, of New York, and in quick succession with little or no ceremony the bodies of Frank D. Millett, the artist; H. J. Allison, of Montreal, and many others were given in charge of friends.

By tomorrow nearly all of the claimed will be on their way home for burial.

The slight scrutiny of unidentified tonight led to what may mean the identification of two of the victims. One man, whose name was not learned, said he recognized one of the bodies as that of J. F. P. Clark, assistant purser on the Titanic, while letters found on another body bore the name of Arthur White.

There are only five women's bodies among the unidentified and as one of them appears to be that of a Swedish woman and the other four those of Italians, there is little hope apparent of recovering the body of Mrs. Isidor Straus, who stayed by the ship with her husband. One little child, a baby girl of about two years, lies among the unclaimed, nameless and without a suggestion of who her parents were or are. Of all the bodies picked up her's was the only one that the waves bore without the aid of a life belt. She was found floating serenely, looking very much like a big doll.

Despite predictions to the contrary, nearly all of the bodies bore indications that the victims had died swiftly, if not almost painlessly. In many cases their features were calm and with the exception of those who had been severely injured, they were remarkably free from the stamp of horror or suffering. All were in a remarkable state of preservation.

Samuel Wallach, who inspected part of the unidentified today, said that he

ONLY FOUR MORE TALESMEN NEEDED

Rapid Progress Is Made Towards Securing Jury to Try Floyd Allen.

THE PRISONERS BREAK DOWN

Outlaws' Defiance Wavers and Tears Stream Down Their Faces—Women Leave Jail Sobbing. Sidna Allen Seen.

Wytheville, Va., April 30.—Progress was rapid today toward securing a jury to try Floyd Allen, indicted for five murders in the Carroll county Court House on March 14th, last. The first day's session of court adjourned with 12 talesmen satisfactory as to cause, obtained out of a venire of 40. Four more talesmen are needed to fill the box and it is expected they will be selected early tomorrow when the defense will exercise four peremptory challenges allotted to it by Virginia law and the remaining 12 talesmen will be sworn as jurors.

Floyd Allen was placed on trial specifically for the murder of Commanwealth Attorney W. M. Foster. Many veniremen had formed fixed opinions as to the guilt of the prisoner and were disqualified. The course of questioning adopted by the defense indicated that it would try to disprove newspaper accounts charging the Allens had started the shooting. The defense will seek to place the blame for the trouble on the court officers, who, it will be claimed, were at one time personal enemies of the Allens.

The court room was crowded throughout the day. Jasper Allen, a brother of the prisoner, as well as three other women relatives, were searched for concealed weapons as they entered. Three armed detectives were stationed on guard among the spectators.

Judge A. A. Campbell, who was appointed to succeed the late Judge Thornton L. Massie, sat beside Judge Walter R. Staples, who was especially detailed by Governor Mann to try the Allen cases.

Floyd Allen and the other five prisoners are quartered in a little brick jail a few yards from which a circus has pitched its camp. Through the cell bars they can watch the performances.

More than 200 witnesses will be called in the Allen cases. Not a few of them set out on foot from the mountains and should reach here tomorrow. It is a 40-mile walk from their homes, but those who arrived tonight appeared none the worse for the jaunt.

The jail was the scene tonight of a reunion of the Allen family. Mrs. Floyd Allen broke down as she saw her husband and two sons, Victor and Claude, behind the bars. With her came Mrs. Albert Edwards, a sister of Floyd Allen, and mother of Sidna Edwards.

Mrs. Victor Allen, wife of one of the accused men, brought her three small children. Jack Allen, a brother of Floyd, and father of Friel Allen, was in the party.

For a few minutes the strong defiance of the prisoners wavered and tears streamed down the faces of all. The women left the jail sobbing. So long have the Allens remained in the mountain homes that with one exception the women members of the family, before their trip here, had never seen a railroad train or automobile. Floyd Allen himself in being conveyed back and forth today from the jail to the court house, experienced his first ride in an automobile.

On Sidna's Trail.

Mount Airy, N. C., April 30.—Sidna Allen, one of the two uncaptured Hillsville outlaws, was seen yesterday afternoon in the mountains near Fancy Gap by Dr. Thomas B. Ashby, of this place, who was at the home of Chares Webb there. Both Ashby and Webb, who know Sidna Allen well, say there is no doubt as to the identity of the outlaw. He emerged from the woods near Webb's home, but when he spied the men he disappeared. Investigation failed to disclose where he went. A posse of detectives is now on the trail.

TAFT COMES TO SOUTH

President Goes to Savannah and Augusta to Attend Exercises

Washington, April 30.—President Taft returned to Washington from his campaign trip to Massachusetts shortly before 10 o'clock today. His stay in the capital was brief, however, as he left for Savannah, Ga., at 3:30 o'clock this afternoon. The President will also visit Augusta, Ga., and attend memorial services there for his late aide, Major Archibald W. Butt. He will attend a dinner of the Yale alumni at Savannah tomorrow evening and will go from there to Augusta to attend the memorial service for Major Butt. President Taft will be back in Washington Friday morning.

Deposits made in the Savings Department of the American National Bank on or before May the second, will draw 4 per cent. compound interest from May the first. Read their ad in usual space in this morning's paper and look their figures over closely and you will decide quickly that you should have an account with youngest and most progressive National Bank section. **2t.

CAROLINA DEFEATS GEORGIA.

Rival Universities Play Close and Exciting Game.

(Special Star Telegram.)

Chapel Hill, N. C., April 30.—In an exciting and close game of base ball Carolina defeated Georgia today by the score of 6 to 5. Carolina took the lead in the first inning, and although Georgia three times came within one run of tying the score, the white and Blue was able to hold its own. For the second time this season a visiting player drove a ball over the fence. This time it was McWhorter, center fielder, who performed the feat.

"General" Lee came near duplicating th act when, in the same inning, he laid up against the left field palings.

Georgia's infield pulled off two fast double plays. The game was close, but not exceptionally well played. Errors figured prominently in the runs made by both sides. Score:

Club:	R.	H.	E.
Carolina	6	7	2
Georgia	5	6	5

FIFTEEN-INNING GAME

Exciting Indoor Baseball Contest at Y. M. C. A. Last Night

One of the most exciting indoor baseball games of the season was played at the Y. M. C. A. gymnasium last night between the Clams and the Sand Fiddlers, the latter team winning out in the 15th inning by the score of 3 to 2. Neither team scored until the fifth inning, when the Sand Fiddlers put one across. In the next inning the Clams evened things up and in the next panel each team added another. From then until the 15th inning neither scored. At the beginning of the 15th Cleaper hit a safe one and arrived at the initial sack, advancing to third on Farrar's hit. Walker followed with another hit, congesting the circuit. LeGwin then sent a safe one past short, scoring the winning run. Cleaper, for the Sand Fiddlers, struck out 15 men and Davis, for the Clams, also pitched a superb game. The Sand Fiddlers now lead the league, the Crabs following and the Clams bringing up the rear.

Detroit, April 30.—Detroit won a 10-inning game from Chicago today 4 to 3. Cobb singled in the tenth with one out and went to third on Crawford's hit to center. As Ty slid into third he kicked the ball which was lying in front of Tannehill and it rolled to the grand stand, allowing him to score the winning run.

FAILS TO EARN DIVIDEND

Steel Corporation Creates Deficit to Meet Dividend Requirements

New York, April 30.—That the United States Steel Corporation failed to earn its dividend on the preferred and common shares for the first three months of this year by more than $6,000,000, was disclosed today at the quarterly meeting of the directors at which the regular dividends were declared.

Earnings after charging interest on subsidiary companies, bonds, together with interest on outstanding subsidiary bonds amounted to only $77,826,973. After making the usual allowances net earnings were reduced to $12,108,415. A further deduction of $5,741,849, representing interest for the quarter on the outstanding issues, reduced the balance applicable to dividends to $6,366,566. Inasmuch as $12,658,700 was necessary to meet dividend requirements on the preferred and common shares, a deficit of $6,292,134 was created.

Today's meeting was largely attended and unusually prolonged. It was rumored that some of the directors favored a reduction of the common dividend because of the showing, but this was denied.

STRIKERS ENGAGE IN FIGHT.

Policemen Shoot Stevedores Armed With Sticks and Stones.

Baltimore, April 30.—Defending themselves when about 1,000 striking stevedores, many armed with sticks and stones, swooped down upon them, a squad of policemen guarding Pier No. 6 at Canton today, drew their revolvers and fired many shots. The strikers were attempting to get on the pier to reach strike breakers engaged in the discharge of the cargo of the steamer Bulgaria. Several men were shot, but not seriously and a number of heads were cracked.

When the police reinforcements arrived they began pushing back the crowd. No resistance was offered, but some of the dissatisfied ones accompanied their retreat with cries of "we want bread! We don't want to be driven about like cattle!"

A committee of 30 will tomorrow endeavor to arrange some plan to end the strike.

WILL ARBITRATE

Threatened Railroad Strike Averted For Time Being

Ntw York, April 30.—The threatened strike of engineers of the 50 railroads east of Chicago and north of the Norfolk & Western and Chesapeake & Ohio, was averted by the signing of an arbitration agreement between the two committees representing the railroads and the engineers.

The arbitration committee will consist of seven members, one from the railroads, one from the engineers and the other five to be appointed by the two. If the two fail to agree on the five umpires, Chief Justice White, Commissioner of Labor McNeill and Judge Knapp will be asked to make the appointments.

Washington, April 30.—The Inter-State Commerce Commission today suspended advances averaging approximately 9 per cent. in class freight rates from New Orleans, La., to Montgomery, Selma and Prattville, Ala., and Pensacola, Fla., proposed by some of the Southern and Southeastern railways from May 7th to August 22d.

Escapes An Awful Fate

A thousand tongues could not express the gratitude of Mrs. J. E. Cox, of Joliet, Ill., for her wonderful deliverance from an awful fate. "Typhoid pneumonia had left me with a dreadful cough," she writes. "Sometimes I had such awful coughing spells I thought I would die. I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy for I scarcely cough at all now." Quick and safe, its the most reliable of all throat and lung medicines. Every bottle guaranteed, 50c. and $1. Trial bottle free at R. R. Bellamy's.

Rehder's May Sale started Monday with a rush and has continued. Why? The answer is on account of the great values. Rehder always gives values. **

"TAKE A STAMP, LEAVE A BIT"

Rawhide's First Post Office the Simplest Ever

YOU HAD TO BE HONEST

But Men Who Had Picked "Tuxedo" Could Be Trusted

Anybody could have gathered it and run off with it under his arm post office, flag pole and all.

Simple?—well it was that and some.

They put it up in Rawhide, Nevada In the early days of the mining boom there. And it's still in existence, a highly treasured souvenir, in a certain

"RAWHIDE'S FIRST POST OFFICE"

New York office where you can do almost anything by pressing a button.

This post office, set up by the roadside in 1897, and serving among other purposes to point the way into Rawhide, consisted of an upright stick surmounted by a swivel flag pole bearing a white flag. When the flag was up, the water wagon man knew that he was to make a delivery of water. Near the top of the stick was a "Tuxedo" tobacco tin containing a book of postage stamps, and a notice which ran thus: "Take a stamp and leave a bit for the stage driver"—a "bit," it may be necessary to inform unenlightened Eastern readers, being a quarter. A stamp having been affixed, the letter was dropped into a sixteen ounce seal box of the R. A. Patterson Tobacco Company, which was fastened underneath, and from which the mail driver made collection.

The authenticity of this interesting relic is certified to by C. C. Dunning, who had the mail contract at the time. Dunning knows. He found the "bits" and humped in the stage.

Was everybody honest? Well, they had to be, as there might have been trouble. But nobody expected anything but honesty. It was the fashion among these pioneers. And smoking an honest tobacco was a big start. They surely liked the smoke in that green tin!

The accompanying sketch was made from a photograph taken while the post office was still in operation.

Tuxedo tobacco is a real boon to the fastidious smoker because he can smoke it around the house without leaving behind the odor of stale tobacco. The man whose wife objects to the stale tobacco smoke in and hangings has there isn't any able odor and a time smokers a plies the last ing. It is m ing. "SMOKERS CATCH ON"

A Successful Broker's Experience in Planting and Selling Tobacco

"I tell you, growing really fine tobacco is a big game and a mighty difficult game," said an old tobacco planter—twenty-three years at the business of coaxing the best tobacco out of the soil—since embarked in the other business of tobacco brokerage.

"People are very particular about their tobacco now-a-days. One thing I found out early. It paid me to turn t the finest Burley that could be n, because I could sell it to the Patterson Company for more than any one else would pay. ok all I could grow that was p to the top notch, for their I knew they sold their to- to smokers for the same price were charging, but they were s willing to pay more them- , and did pay more, for the leaf co. No wonder that Tuxedo stands so high.

"Well, one of the results of my planting experience and selling experience is that when I got to be a broker myself I just naturally specialized in the Patterson tobacco. I know how good it is. I know how carefully it is gathered and made, and I've had my biggest success as a dealer with Tuxedo.

"American smokers catch on to quality if you give them a chance."

SESSION OF CITY COUNCIL

Municipality Stands Pat On Sewerage Proposition—Much Routine Business Disposed Of—Park Proposition

During a two-hours' and a half session of the City Council yesterday afternoon, beginning at 4 o'clock, the municipality decided to stand pat on its original proposition to the Wilmington Sewerage Company to arbitrate the value of its plant without recourse to what is now popularly known as the "sneak bill" of the 1911 session of the General Assembly, which takes the city at a decided disadvantage and to insist that an answer must be given at once, a special session being called for 10 o'clock this morning at which time it is hoped to finally conclude the matter one way or another.

The Council was engaged for the most part of the session in consideration of other matters, many of them important; others of trifling consequences. Mayor Smith was present and presiding while every member of Council was in his seat, with Capt. Thos. D. Meares, the clerk; City Attorneys McClammy and Peschau; Chief of Police Fowler; Dr. Nesbitt, superintendent of health; City Engineer Pillett; Chief Schnibben, of the fire department; Mr. R. C. Cantwell, superintendent of water and sewerage, and several interested spectators. After the reading of the minutes, an hour was consumed in hearing Robert Ruark, Esq., attorney for the Clarendon Construction Co., with reference to its claim against the city of about $800 in connection with recent contracts for laying storm sewers in the vicinity of 17th and Market streets, the contractor claiming the excess by reason of extra excavations required by the city engineer. After a lengthy discussion, Council decided to settle on the basis of the city engineer's recommendations which allowed $60 or $80 for extra work.

Under head of unfinished business, the resignation of Mr. M. S. Willard, as a member of the civil service board, was accepted, Mr. Willard recently having been elected a member of the Board of County Commissioners. Mr. E. P. Bailey was at first elected to the position, but later it was stated that on account of city contracts, Mr. Bailey would likely not accept and Mr. L. W. Moore was unanimously elected to the position.

A petition from residents of St. James' Square, asking that the vitrified brick pavement be continued around that property which has been built up within the past few years, was referred to the Department of Streets and Wharves.

Mayor Smith asked the head of each department of the city government within the next week or ten days to prepare a written report of the work in his department for the past year to be included in the annual report required by law to be published. Members stated that they would comply with the request.

Restaurant license, upon disapproval by the chief of police and the councilman in charge of Public Safety, was not granted to John Heritos, No. 207 1-2 Princess street. The following were granted: John E. Richardson, southeast corner Fifth and Nixon; R. H. Reville, Greenfield Mill Pond; Abbie Sullivan, 504 Harnett street; M. H. Hill, 715 North Eighth; James McKoy, Ninth and Walnut; Benj. Lucas, 222 South Seventh; Satira Martin, Love's Alley and Swann streets. Most of these are for cold drink stands. A number of other applications had been made but the officials in the Department of Public Safety had not had the time to investigate them.

The proposition of the Wilmington Suburban Co., through Mr. M. S. Willard, to donate 18 to 25 acres of land in the vicinity of Greenfield Mill Pond for public park purposes, provided the city would build an improved street the seven blocks from Fourth and Wooster and require abutting property owners to build standard sidewalks, was taken up as the offer expires on May 1st. Councilman P. Q. Moore, of the Streets and Wharves Department, to whom the matter had been referred, reported that the proposed street improvement would cost $14,610 and that the conditions imposed in the proposed gift also called for beautifying the place, which would also have to be improved. Work is required to be started by May 15th. Council was very favorable to the proposition, but at the time was not prepared to act and it was decided to take the matter up again at a conference to be held at 10 o'clock this morning.

Councilman P. Q. Moore presented a resolution setting forth the need of some lot on which the city could take care of its freight shipments and materials while the extensive street work and other construction for the city is in progress, recounting how goodly sums were being paid out for demurrage, etc., and suggesting that the city buy from the A. W. Pate Co., the block formerly occupied by the old tobacco warehouse for the sum of $13,500, providing for the disposition of the lot after it was no further useful to the city. The proposition had been gone into very thoroughly by the Council and the resolution was unanimously adopted as being both safe as an investment and highly expedient just at this time. The property has all necessary trackage, etc.

The sewerage matter was next taken up and City Attorney McClammy presented the details of the arbitration and legal proceedings as proposed by the sewerage company's attorneys at the conference Monday afternoon. These details were very satisfactory to Council, except that each side was given right of appeal in which event the 1911 bill of the General Assembly would be active. This was regarded as manifestly unfair to the city in the event either side would appeal and values would have to be fixed under this law and the proposition was rejected and the clerk was directed to insist upon an answer to the city's proposition made long ago to arbitrate the differences by unbiased engineers, the conclusions reached by them to be final. The sewerage company had never yet answered this proposal, which was regarded by everyone at the time as eminently fair to all concerned. It was decided to further consider the matter at the conference this morning at 10 o'clock.

The contract for Summer uniforms for the sanitary police was awarded to Mr. J. W. H. Fuchs at $14.50 per suit, according to samples attached.

The only other matter before Council yesterday was the health ordinance providing for the protection of food supplies, and this is given in full elsewhere in today's paper.

Concord, N. H., April 30.—The State Republican Convention today elected four delegates at large to the Chicago convention, favoring the re-nomination of President Taft and instructed them to vote for him until released. A clause in the platform presented to the convention instructing the delegates not to vote for Col. Roosevelt under any circumstances was stricken out after a heated debate.

New York, April 30.—Bob Moha, of Milwaukee, had the better of seven of the 10 rounds he fought with Bill McKennon, of Boston, at the St. Nicholas Athletic Club here tonight.

South Norwalk, Conn., April 30.—Knockout Brown, of New York, had the better of Al Ketchel in 10 fast rounds at the Twin City Athletic Club tonight.

Stops Neuralgia Pains

HEAVY FERTILIZER SALES?

State Inspection Is at Least Costing More—Test Farms—Mr. Daniels Talks of Baltimore Convention—Simmons

(Special Star Correspondence.)

Raleigh, N. C., April 30.—That the fertilizer sales in North Carolina this Spring are unprecedentedly heavy is evidenced by the fact that the usual allowance of expense fund for the traveling expenses of the fertilizer inspectors provided by the State Board of Agriculture for this season is already exhausted and the finance committee of the board was called together today in special session to place further funds at the disposal of the Commissioner of Agriculture to take care of this inspection expense.

There are seven inspectors in the State, the number having been cut from ten employed prior to the last Legislature. And the seven are finding it very hard to take care of the situation. So much so that the next Legislature will doubtless be confronted with the necessity of restoring the number at least to the original ten men. The finance committee of the board here to meet the financial needs of the present situation consists of H. C. Carter, Fairfield; I. H. Kearney, Franklinton; A. T. McCallum, Red Springs; J. P. McRae, Laurinburg, and W. J. Shuford, Hickory.

The State Board of Agriculture Committee on State test farms met here today and went for a trip to the Pender and the Edgcombe State test farms with a view to personal inspection of the conditions and the work under way at each. They say that the reports of the work that are coming in are very gratifying and indicate very great benefit for the farmers of the surrounding country, but that they desire to take frequent personal "lookins" on the work. They will go a little later to the test farms in the central and the western sections and will make a practice of visiting the farms in person several times during each season.

Governor Kitchin has gone to Charlotte to make a campaign speech in connection with the race he is making for the United States Senate against Senator Simmons and Chief Justice Walter Clark.

National Committeeman Josephus Daniels, editor of The News and Observer, just back from Washington and Baltimore where he went in connection with making preliminary arrangements for the Democratic National Convention in Baltimore, says the approaching convention is sure to be a record-breaker in attendance from every part of the country and especially the South, the East and the Middle West. He says it seems to him that this is surely a Democratic year and that a great, enthusiastic and harmonious National convention of the party will be a crushing contrast to the bitter warfare that is now on between Taft and Roosevelt, the Republican leaders. Friends of Mr. Daniels note with pleasure the marked improvement in his health since he underwent an operation in Rex Hospital here a couple of months ago.

Mr. J. T. Crocker, who for a number of years was clerk in the Yarborough Hotel, under the Raney and Brown managements and has since been engaged in the mercantile business at Middleburg, has returned to The Yarborough to resume clerical duties.

News was received here today of the death of Will Marshall, son of Manager W. F. Marshall, of the Mutual Publishing Co., this city, last evening in Birmingham, Ala., where he has been since the new year with the new offices of the Progressive Farmer there. The young man had been very ill of typhoid fever for several weeks. His father was summoned to his bed side two weeks ago. The remains are being brought to Raleigh for interment.

Hon. S. L. Rogers is expected here within the next few days to take active charge of the campaign of Hon. F. M. Simmons for re-nomination and election, the headquarters to be the old police court quarters in the Metropolitan Hall. He comes from his home in Franklin where he has been looking after his private interests since his retirement from the Corporation Commission on which he served with marked ability for three terms. Mr. A. D. Watts, who came from Washington in the interest of Senator Simmons a couple of weeks ago to make the preliminary arrangements for the opening of the State Simmons headquarters here, has gone to his home county, Iredell, to mend his own fences in a campaign he is waging for a seat in the State Senate for the 1913 Legislature where he has Hon. W. M. Turner, former lieutenant Governor, as an opposing candidate in the Democratic primaries.

ROCKY MOUNT "TIGER."

Given Five Months on Roads—Spectators Sampled Product.

(Special Star Correspondence.)

Rocky Mount, N. C., April 30.—Joe Bunn, a negro who was lately apprehended in Goldsboro on the charge of selling liquor in this city during the year 1911, was hauled before His Honor this morning. His Honor saw fit to let him go with the road force for five months.

A funny incident which occurred in connection with this case was the dispensing of the "evidence" among the spectators. The "evidence" referred to was about 20 pints of liquor, which were found in Joe's home and which was brought into court by the officers as evidence. After the negro had been sentenced, someone asked what disposition would be made of the liquor and it was then that Mr. Capelle asked his client to give him the liquor, which he did. Mr. Capelle was preparing to give it away among the spectators, when Judge Fountain told him that it required illness to get any of the liquor and it was then that several gentlemen in the court room suddenly developed bad coughs while one went into convulsions and another in the corner was suddenly taken with a stroke of paralysis. If the negro had been called back for a new trial within five minutes he would have walked forth a free man as there would have been no evidence to convict him.

THOMASVILLE ORPHANAGE

Magnificent Country Home Presented —Kinston News Notes

(Special Star Correspondence.)

Kinston, N. C., April 30.—Mr. and Mrs. W. L. Kennedy, of Falling Creek, this county, have presented their magnificent country home, "Cedar Dell," to the Baptists of North Carolina, to be used as a branch of the Thomasville Orphanage. The donation includes 1,200 acres of rich farming lands, all farming equipment, etc. The intention of the board of trustees is to erect the necessary buildings for the establishment of the institution, which is to be known as the Kennedy Memorial Home, as soon as possible. The splendid home which graces the estate will be retained by Mr. and Mrs. Kennedy as a place of residence during their lifetime. The first donation from a church organization to the project was made by the Vance-Institute Sunday School Association, of this county, which yesterday sent a cash contribution to Thomasville, to be set aside for the use of the new home.

Dr. B. W. Spilman, of this city, field secretary for the Southern Baptist Convention Sunday School work, has accepted an invitation to deliver the annual commencement address of the Newbern city schools on the night of May 30th.

In a shipment of goods which was received by Dail & Taylor, a haberdashery concern of this city, from a Cincinnati house, a note was found, bearing the following from a baseball fan of the Ohio city: "Send us another George Suggs and we will win the pennant." The praise of Suggs was not in the least undeserved, for it is evident that the Kinstonian is doing his full share towards making the Reds the flag winners.

The largest fruit crop, possibly, that Lenoir county has ever had is the prospect at present. Peaches, apples and berries will make record crops for this vicinity, and trees everywhere are loaded down with the young fruit. The reports from Greene and Pitt and the counties south of here are of similar conditions.

DR. FAISON'S RECORD.

He Has Made Good at the Nation's Capital—Some Measures.

(Special Star Correspondence.)

Rocky Point, N. C., April 30.—Has Dr. Jno. M. Faison as representative of the Third Congressional District "made good"? Well, we rather believe he has. He has been active in introducing many measures and successfully carrying them out. There is now being investigated a map of the soil survey of Pender through his efforts that will be of great value to home-seekers that are coming and will continue to come to this the garden spot of eastern North Carolina. Last year he was instrumental in having liberated in the waters of Pender, Duplin and Sampson counties hordes of shad that will in two years come teeming back into the rivers in which they were liberated. He writes that additional lots will be placed this Spring provided the government hatchery meets with its usual success. He will also have distributed millions of black bass, locally known as chub and fresh water trout, that game fish that makes the reel sing and bends the pole double when he strikes the fly.

Dr. Faison's investigation of "ox cart" schedules in the matter of transportation of truck and berry trains has amounted to thousands of dollars that have and will inure to the growers of truck and berries. He is in favor of and will vote for the Mints substitute bill now pending before Congress, a bill that appropriates $10,000,000 to unimproved post or rural route roads, as our part of the spoils (if it can be called such) to offset pensions and protective tariff that our Northern Congressmen are so freely bestowing on themselves and their constituents.

Dr. Faison is on the Merchant Marine Committee, a most important one. While he is not chairman, but simply "private high John", his voice carries conviction when he uses it in behalf of the people and where that "big foot" of his is planted it stands firmly.

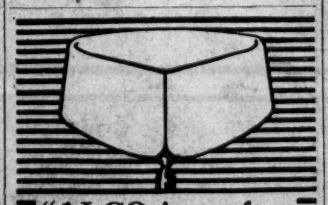
VOTE TO SELL PLANT.

Election in Wadesboro for Sale of Light Plant Carried 162 to 28.

(Special Star Telegram.)

Wadesboro, N. C., April 30.—The election here today for the sale of the Wadesboro electric light plant carried by a good majority, 162 votes being cast for the sale with only 28 against it. This means that Wadesboro will in a short time have all the advantage that plenty of electricity gives a town. Of course, with plenty of electricity here, manufacturing industries will come to the best town in the State.

You will save five times four per cent. if you shop at Polvogt's during their May Sale. **



"ALCO is preferred by more good dressers than any other collar worn" says a fashion authority.

It is the *perfect close-front* with the Patented "Lock-that-Locks." You button "ALCO" in a second with the "Slip-Over" Button-hole—and the "Easy-Tie-Slide" space is another comfort feature. Made in three heights—"Explorer," "Alco" and "Climax." Ask the good haberdasher in your locality about

STORM IN NASH.

Severe Wind Storm in Vicinity of Rocky Mount Monday Afternoon.

(Special Star Correspondence.)

Rocky Mount, N. C., April 30.—Stormswept for a distance of more than ten miles into Nash county, this city was in the path of a small cyclone that visited this section yesterday afternoon and did considerable damage. About 4 o'clock a wind storm accompanied by considerable severe lightning, broke over this city and within a half an hour the electric light plant was out of commission, the telephone and telegraph lines badly damaged, while from all sides there came reports of minor damages within the city that had been worked by the severe wind. Fences, and billboards fared bad, and in some instances the roofs of small houses were blown off, trees were wrecked and the usual havoc of a miniature cyclone were worked.

In Nash county, about five miles fro mthis city in the neighborhood of the farm of Mr. R. H. Ricks, the path of the wind was about a mile in width and blowing in a northeast and from a southwest direction, it worked considerable damage and there is hardly a forest within this path that does not show considerable damage from the storm. On the farm of Mr. W. E. Fenner, the packhouse was unroofed while two of the tobacco barns on the home place of Mr. Cad Griffin were blown down and considerable damage resulted. The county roads in a number of places in Nash county were blocked immediately following the storm, by trees which it was necessary to cut out of the road or else detour around them, in some instances this not being possible. Thus far no deaths or injuries have been reported.

The electrical storm as well as the wind worked considerable hardship on the wire companies, the lines of the telegraph company working only partially, while the power and light circuits of the electrical company were off much of today, undergoing necessary repairs.

DON'T GROW BALD YOUNG MAN!

Take Care of Your Hair While You Have Hair to Take Care Of.

It's a safe ten to one bet that the young man who uses PARISIAN SAGE as an occasional hair dressing will never grow bald.

There's a reason, of course, and it's a very good and sufficient one.

Dandruff germs cause falling hair and falling hair means thinner hair and in due time baldness.

PARISIAN SAGE prevents baldness, by destroying the cause of baldness—the little persistent vociferous dandruff germ.

The Naked Truth
DANDRUFF GERMS Did It

If you have dandruff or itching scalp it means that dandruff germs are sapping the vitality from the roots of your hair. Get rid of all hair troubles by using PARISIAN SAGE. It is not a dye, mind you, neither does it contain poisonous sugar of lead or even sulphur. PARISIAN SAGE is a scientific preparation that abolishes dandruff, stops falling hair and scalp itch, and makes hair grow lustrous and luxuriant.

Many young women as well as men are growing bald and for the same reason.

Use delightful, refreshing PARISIAN SAGE; it nourishes the hair roots, if the roots are not dead, and brings to every user a head of glorious hair—radiant and fascinating. Large bottle for 50 cents at drug and department stores and toilet goods counters. See that you get PARISIAN SAGE. The girl with the auburn hair is on every carton and bottle.

R. R. Bellamy guarantees it.

How to be Certain of Curing Constipation

Prejudice is a hard thing to overcome, but where health is at stake and the opinion of thousands of reliable people differs from yours, prejudice then becomes your menace and you ought to lay it aside. This is said in the interest of people suffering from chronic constipation, and it is worthy of their attention.

In the opinion of legions of reliable American people the most stubborn constipation imaginable can be cured by a brief use of Dr. Caldwell's Syrup Pepsin. You may not have heard of it before, but do not doubt its merits on that account, or because it has not been blatantly advertised. It has sold very successfully on word of mouth recommendation. Parents are giving it to their children today who were given it by their parents, and it has been truthfully said that more druggists use it personally in their families than any other laxative.

Letters recently received from Mr. J. N. Catlett, Commerce, Ga., and Mrs. Rose Garvin, Ridgeville, S. C., are but a few of thousands showing the esteem in which Dr. Caldwell's Syrup Pepsin is held. It is mild, gentle, nongriping—not violent, like salts or cathartics. It cures gradually and pleasantly, so that in time nature again does its own work without outside aid. Constipated people owe it to themselves to use this grand bowel specific.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

Style That Stays Stylish

Copyright Hart Schaffner & Marx

YOU young fellows who know and like the smart distinction of style in the clothes we sell, can best understand why we say so much about quality.

You want style; but what's the good of style that doesn't stay stylish? Do you know what it is that keeps these

HART, SCHAFFNER & MARX

clothes looking well, even after a whole season's wear? It's the most important thing to know about clothes.

All-wool fabrics first—there are plenty of clothes that are not all-wool. Scientific shrinking by cold water; a process that cotton mixtures can't stand. The best tailoring; skilled hands shaping the garment, not just sewing seams together.

These are the things you get when you buy Hart, Schaffner & Marx clothes here. They're the things you want to get.

Smith, Gray & Co.'s Made-to-Order Clothes.

CAROLINA DEFEATS GEORGIA.

Rival Universities Play Close and Exciting Game.

(Special Star Telegram.)

Chapel Hill, N. C., April 30.—In an exciting and close game of base ball Carolina defeated Georgia today by the score of 6 to 5. Carolina took the lead in the first inning, and although Georgia three times came within one run of tying the score, the white and Blue was able to hold its own. For the second time this season a visiting player drove a ball over the fence.

This time it was McWhorter, center fielder, who performed the feat.

"General" Lee came near duplicating th act when, in the same inning, he laid up against the left field palings.

Georgia's infield pulled off two fast double plays. The game was close, but not exceptionally well played. Errors figured prominently in the runs made by both sides. Score:

Club:	R.	H.	E.
Carolina	6	7	2
Georgia	5	6	5

FIFTEEN-INNING GAME

Exciting Indoor Baseball Contest at Y. M. C. A. Last Night

One of the most exciting indoor baseball games of the season was played at the Y. M. C. A. gymnasium last night between the Clams and the Sand Fiddlers, the latter team winning out in the 15th inning by the score of 3 to 2. Neither team scored until the fifth inning, when the Sand Fiddlers put one across. In the next inning the Clams evened things up and in the next panel each team added another. From then until the 15th inning neither scored. At the beginning of the 15th Cleaper hit a safe one and arrived at the initial sack, advancing to third on Farrar's hit. Walker followed with another hit, congesting the circuit. LeGwin then sent a safe one past short, scoring the winning run. Cleaper, for the Sand Fiddlers, struck out 15 men and Davis, for the Clams, also pitched a superb game. The Sand Fiddlers now lead the league, the Crabs following and the Clams bringing up the rear.

FAILS TO EARN DIVIDEND

Steel Corporation Creates Deficit to Meet Dividend Requirements

New York, April 30.—That the United States Steel Corporation failed to earn its dividend on the preferred and common shares for the first three months of this year by more than $6,000,000, was disclosed today at the quarterly meeting of the directors at which the regular dividends were declared.

Earnings after charging interest on subsidiary companies, bonds, together with interest on outstanding subsidiary bonds amounted to only $77,826,973. After making the usual allowances net earnings were reduced to $12,108,415. A further deduction of $5,741,849, representing interest for the quarter on the outstanding issues, reduced the balance applicable to dividends to $6,366,566. Inasmuch as $12,658,700 was necessary to meet dividend requirements on the preferred and common shares, a deficit of $6,292,134 was created.

Today's meeting was largely attended and unusually prolonged. It was rumored that some of the directors favored a reduction of the common dividend because of the showing, but this was denied.

STRIKERS ENGAGE IN FIGHT.

Policemen Shoot Stevedores Armed With Sticks and Stones.

Baltimore, April 30.—Defending themselves when about 1,000 striking stevedores, many armed with sticks and stones, swooped down upon them, a squad of policemen guarding Pier No. 6 at Canton today, drew their revolvers and fired many shots. The strikers were attempting to get on the pier to reach strike breakers engaged in the discharge of the cargo of the steamer Bulgaria. Several men were shot, but not seriously and a number of heads were cracked.

When the police reinforcements arrived they began pushing back the crowd. No resistance was offered, but some of the dissatisfied ones accompanied their retreat with cries of "we want bread! We don't want to be driven about like cattle!"

A committee of 30 will tomorrow endeavor to arrange some plan to end the strike.

WILL ARBITRATE

Threatened Railroad Strike Averted For Time Being

Ntw York, April 30.—The threatened strike of engineers of the 50 railroads east of Chicago and north of the Norfolk & Western and Chesapeake & Ohio, was averted by the signing of an arbitration agreement between the two committees representing the railroads and the engineers.

The arbitration committee will consist of seven members, one from the railroads, one from the engineers and the other five to be appointed by the two. If the two fail to agree on the five umpires, Chief Justice White, Commissioner of Labor McNeill and Judge Knapp will be asked to make the appointments.

Washington, April 30.—The Inter-State Commerce Commission today suspended advances averaging approximately 9 per cent. in class freight rates from New Orleans, La., to Montgomery, Selma and Prattville, Ala., and Pensacola, Fla., proposed by some of the Southern and Southeastern railways from May 7th to August 22d.

Escapes An Awful Fate

A thousand tongues could not express the gratitude of Mrs. J. E. Cox, of Joliet, Ill., for her wonderful deliverance from an awful fate. "Typhoid pneumonia had left me with a dreadful cough," she writes. "Sometimes I had such awful coughing spells I thought I would die. I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy for I scarcely cough at all now." Quick and safe, its the most reliable of all throat and lung medicines. Every bottle guaranteed. 50c. and $1. Trial bottle free at R. R. Bellamy's.

Rehder's May Sale started Monday with a rush and has continued. Why? The answer is on account of the great values. Rehder always gives values. **

"TAKE A STAMP, LEAVE A BIT"

Rawhide's First Post Office the Simplest Ever

YOU HAD TO BE HONEST

But Men Who Had Picked "Tuxedo" Could Be Trusted

Anybody could have gathered it and run off with it under his arm—post office, flag pole and all.

Simple?—well it was that and then some.

They put it up in Rawhide, Nevada, in the early days of the mining boom there. And it's still in existence, a highly treasured souvenir, in a certain

"RAWHIDE'S FIRST POST OFFICE"

New York office where you can do almost anything by pressing a button.

This post office, set up by the roadside in 1897, and serving among other purposes to point the way into Rawhide, consisted of an upright stick surmounted by a swivel flag pole bearing a white flag. When the flag was up, the water wagon man knew that he was to make a delivery of water. Near the top of the stick was a "Tuxedo" tobacco tin containing a book of postage stamps, and a notice which ran thus: "Take a stamp and leave a bit for the stage driver"—a "bit," it may be necessary to inform unenlightened Eastern readers, being a quarter. A stamp having been affixed, the letter was dropped into a sixteen ounce seal box of the R. A. Patterson Tobacco Company, which was fastened underneath, and from which the mail driver made collection.

The authenticity of this interesting relic is certified to by C. C. Dunning, who had the mail contract at the time. Dunning knows. He found the "bits" and humped in the stage.

Was everybody honest? Well, they had to be, as there might have been trouble. But nobody expected anything but honesty. It was the fashion among these pioneers. And smoking an honest tobacco was a big start. They surely liked the smoke in that green tin!

The accompanying sketch was made from a photograph taken while the post office was still in operation.

Tuxedo tobacco is a real boon to the fastidious smoker because he can smoke it around the house without leaving behind the odor of stale tobacco. "SMOKERS CATCH ON"

A Successful Broker's Experience in Planting and Selling Tobacco

"I tell you, growing really fine tobacco is a big game and a mighty difficult game," said an old tobacco planter—twenty-three years at the business of coaxing the best tobacco out of the soil—since embarked in the other business of tobacco brokerage.

"People are very particular about their tobacco now-a-days. One thing I found out early. It paid me to turn ...t the finest Burley that could be ...n, because I could sell it to the ...Patterson Company for more ...an any one else would pay. ...ok all I could grow that was ...p to the top notch, for their ... I knew they sold their to... to smokers for the same price ... were charging, but they were ...s willing to pay more them... ..., and did pay more, for the leaf ...co. No wonder that Tuxedo ...stands so high.

"Well, one of the results of my planting experience and selling experience is that when I got to be a broker myself I just naturally specialized in the Patterson tobacco. I know how good it is. I know how carefully it is gathered and made, and I've had my biggest success as a dealer with Tuxedo.

"American smokers catch on to quality if you give them a chance."

SESSION OF CITY COUNCIL

Municipality Stands Pat On Sewerage Proposition—Much Routine Business Disposed Of—Park Proposition

During a two-hours' and a half session of the City Council yesterday afternoon, beginning at 4 o'clock, the municipality decided to stand pat on its original proposition to the Wilmington Sewerage Company to arbitrate the value of its plant without recourse to what is now popularly known as the "sneak bill" of the 1911 session of the General Assembly, which takes the city at a decided disadvantage and to insist that an answer must be given at once, a special session being called for 10 o'clock this morning at which time it is hoped to finally conclude the matter one way or another.

The Council was engaged for the most part of the session in consideration of other matters, many of them important; others of trifling consequences. Mayor Smith was present and presiding while every member of Council was in his seat, with Capt. Thos. D. Meares, the clerk; City Attorneys McClammy and Peschau; Chief of Police Fowler; Dr. Nesbitt, superintendent of health; City Engineer Pillett; Chief Schnibben, of the fire department; Mr. R. C. Cantwell, superintendent of water and sewerage, and several interested spectators. After the reading of the minutes, an hour was consumed in hearing Robert Ruark, Esq., attorney for the Clarendon Construction Co., with reference to its claim against the city of about $800 in connection with recent contracts for laying storm sewers in the vicinity of 17th and Market streets, the contractor claiming the excess by reason of extra excavations required by the city engineer. After a lengthy discussion, Council decided to settle on the basis of the city engineer's recommendations which allowed $60 or $80 for extra work.

Under head of unfinished business, the resignation of Mr. M. S. Willard, as a member of the civil service board, was accepted, Mr. Willard recently having been elected a member of the Board of County Commissioners. Mr. E. P. Bailey was at first elected to the position, but later it was stated that on account of city contracts, Mr. Bailey would likely not accept and Mr. L. W. Moore was unanimously elected to the position.

A petition from residents of St. James' Square, asking that the vitrified brick pavement be continued around that property which has been built up within the past few years, was referred to the Department of Streets and Wharves.

Mayor Smith asked the head of each department of the city government within the next week or ten days to prepare a written report of the work in his department for the past year to be included in the annual report required by law to be published. Members stated that they would comply with the request.

Restaurant license, upon disapproval by the chief of police and the councilman in charge of Public Safety, was not granted to John Heritos, No. 207 1-2 Princess street. The following were granted: John E. Richardson, southeast corner Fifth and Nixon; R. H. Reville, Greenfield Mill Pond; Abbie Sullivan, 504 Harnett street; M. H. Hill, 715 North Eighth; James McKoy, Ninth and Walnut; Benj. Lucas, 222 South Seventh; Satira Martin, Love's Alley and Swann streets. Most of these are for cold drink stands. A number of other applications had been made but the officials in the Department of Public Safety had not had the time to investigate them.

The proposition of the Wilmington Suburban Co., through Mr. M. S. Willard, to donate 18 to 25 acres of land in the vicinity of Greenfield Mill Pond for public park purposes, provided the city would build an improved street the seven blocks from Fourth and Wooster and require abutting property owners to build standard sidewalks, was taken up as the offer expires on May 1st. Councilman P. Q. Moore, of the Streets and Wharves Department, to whom the matter had been referred, reported that the proposed street improvement would cost $14,610 and that the conditions imposed in the proposed gift also called for beautifying the place, which would also have to be improved. Work is required to be started by May 15th. Council was very favorable to the proposition, but at the time was not prepared to act and it was decided to take the matter up again at a conference to be held at 10 o'clock this morning.

Councilman P. Q. Moore presented a resolution setting forth the need of some lot on which the city could take care of its freight shipments and materials while the extensive street work and other construction for the city is in progress, recounting how goodly sums were being paid out for demurrage, etc., and suggesting that the city buy from the A. W. Pate Co., the block formerly occupied by the old tobacco warehouse for the sum of $13,500, providing for the disposition of the lot after it was no further useful to the city. The proposition had been gone into very thoroughly by the Council and the resolution was unanimously adopted as being both safe as an investment and highly expedient just at this time. The property has all necessary trackage, etc.

The sewerage matter was next taken up and City Attorney McClammy presented the details of the arbitration and legal proceedings as proposed by the sewerage company's attorneys at the conference Monday afternoon. These details were very satisfactory to Council, except that each side was given right of appeal in which event the 1911 bill of the General Assembly would be active. This was regarded as manifestly unfair to the city in the event either side would appeal and values would have to be fixed under this law and the proposition was rejected and the clerk was directed to insist upon an answer to the city's proposition made long ago to arbitrate the differences by unbiased engineers, the conclusions reached by them to be final. The sewerage company had never yet answered this proposal, which was regarded by everyone at the time as eminently fair to all concerned. It was decided to further consider the matter at the conference this morning at 10 o'clock.

The contract for Summer uniforms for the sanitary police was awarded to Mr. J. W. H. Fuchs at $14.50 per suit, according to samples attached.

The only other matter before Council yesterday was the health ordinance providing for the protection of food supplies, and this is given in full elsewhere in today's paper.

Concord, N. H., April 30.—The State Republican Convention today elected four delegates at large to the Chicago convention, favoring the re-nomination of President Taft and instructed them to vote for him until released. A clause in the platform presented to the convention instructing the delegates not to vote for Col. Roosevelt under any circumstances was stricken out after a heated debate.

New York, April 30.—Bob Moha, of Milwaukee, had the better of seven of the 10 rounds he fought with Bill McKennon, of Boston, at the St. Nicholas Athletic Club here tonight.

South Norwalk, Conn., April 30.—Knockout Brown, of New York, had the better of Al Ketchel in 10 fast rounds at the Twin City Athletic Club tonight.

Stops Neuralgia Pains

Sloan's Liniment has a soothing effect on the nerves. It stops neuralgia and sciatica pains instantly.

Here's Proof

Mrs. C. M. Dowker of Johannesburg, Mich., writes:—"Sloan's Liniment is the best medicine in the world. It has relieved me of Neuralgia. Those pains have all gone and I can truly say your Liniment did stop them."

Mr. Andrew F. Lear of 50 Clay Street, Cumberland, Md., writes:—"I have used Sloan's Liniment for Neuralgia and I certainly do praise it very much."

HEAVY FERTILIZER SALES?

State Inspection Is at Least Costing More—Test Farms—Mr. Daniels Talks of Baltimore Convention—Simmons

(Special Star Correspondence.)

Raleigh, N. C., April 30.—That the fertilizer sales in North Carolina this Spring are unprecedentedly heavy is evidenced by the fact that the usual allowance of expense fund for the traveling expenses of the fertilizer inspectors provided by the State Board of Agriculture for this season is already exhausted and the finance committee of the board was called together today in special session to place further funds at the disposal of the Commissioner of Agriculture to take care of this inspection expense.

There are seven inspectors in the State, the number having been cut from ten employed prior to the last Legislature. And the seven are finding it very hard to take care of the situation. So much so that the next Legislature will doubtless be confronted with the necessity of restoring the number at least to the original ten men. The finance committee of the board here to meet the financial needs of the present situation consists of H. C. Carter, Fairfield; I. H. Kearney, Franklinton; A. T. McCallum, Red Springs; J. P. McRae, Laurinburg, and W. J. Shuford, Hickory.

The State Board of Agriculture Committee on State test farms met here today and went for a trip to the Pender and the Edgcombe State test farms with a view to personal inspection of the conditions and the work under way at each. They say that the reports of the work that are coming in are very gratifying and indicate very great benefit for the farmers of the surrounding country, but that they desire to take frequent personal "lookins" on the work. They will go a little later to the test farms in the central and the western sections and will make a practice of visiting the farms in person several times during each season.

Governor Kitchin has gone to Charlotte to make a campaign speech in connection with the race he is making for the United States Senate against Senator Simmons and Chief Justice Walter Clark.

National Committeeman Josephus Daniels, editor of The News and Observer, just back from Washington and Baltimore where he went in connection with making preliminary arrangements for the Democratic National Convention in Baltimore, says the approaching convention is sure to be a record-breaker in attendance from every part of the country and especially the South, the East and the Middle West. He says it seems to him that this is surely a Democratic year and that a great, enthusiastic and harmonious National convention of the party will be a crushing contrast to the bitter warfare that is now on between Taft and Roosevelt, the Republican leaders. Friends of Mr. Daniels note with pleasure the marked improvement in his health since he underwent an operation in Rex Hospital here a couple of months ago.

Mr. J. T. Crocker, who for a number of years was clerk in the Yarborough Hotel, under the Raney and Brown managements and has since been engaged in the mercantile business at Middleburg, has returned to The Yarborough to resume clerical duties.

News was received here today of the death of Will Marshall, son of Manager W. F. Marshall, of the Mutual Publishing Co., this city, last evening in Birmingham, Ala., where he has been since the new year with the new offices of the Progressive Farmer there. The young man had been very ill of typhoid fever for several weeks. His father was summoned to his bed side two weeks ago. The remains are being brought to Raleigh for interment.

Hon. S. L. Rogers is expected here within the next few days to take active charge of the campaign of Hon. F. M. Simmons for re-nomination and election, the headquarters to be the old police court quarters in the Metropolitan Hall. He comes from his home in Franklin where he has been looking after his private interests since his retirement from the Corporation Commission, on which he served with marked ability for three terms. Mr. A. D. Watts, who came from Washington in the interest of Senator Simmons a couple of weeks ago to make the preliminary arrangements for the opening of the State Simmons headquarters here, has gone to his home county, Iredell, to mend his own fences in a campaign he is waging for a seat in the State Senate for the 1913 Legislature where he has Hon. W. M. Turner, former lieutenant Governor, as an opposing candidate in the Democratic primaries.

ROCKY MOUNT "TIGER."

Given Five Months on Roads—Spectatators Sampled Product.

(Special Star Correspondence.)

Rocky Mount, N. C., April 30.—Joe Bunn, a negro who was lately apprehended in Goldsboro on the charge of selling liquor in this city during the year 1911, was hauled before His Honor this morning. His Honor saw fit to let him go with the road force for five months.

A funny incident which occurred in connection with this case was the dispensing of the "evidence" among the spectators. The "evidence" referred to was about 20 pints of liquor, which were found in Joe's home and which was brought into court by the officers as evidence. After the negro had been sentenced, someone asked what disposition would be made of the liquor and it was then that Mr. Capelle asked his client to give him the liquor, which he did. Mr. Capelle was preparing to give it away among the spectators, when Judge Fountain told him that it required illness to get any of the liquor and it was then that several gentlemen in the court room suddenly developed bad coughs while one went into convulsions and another in the corner was suddenly taken with a stroke of paralysis. If the negro had been called back for a new trial within five minutes, he would have walked forth a free man as there would have been no evidence to convict him.

THOMASVILLE ORPHANAGE

Magnificent Country Home Presented —Kinston News Notes

(Special Star Correspondence.)

Kinston, N. C., April 30.—Mr. and Mrs. W. L. Kennedy, of Falling Creek, this county, have presented their magnificent country home, "Cedar Dell," to the Baptists of North Carolina, to be used as a branch of the Thomasville Orphanage. The donation includes 1,200 acres of rich farming lands, all farming equipment, etc. The intention of the board of trustees is to erect the necessary buildings for the establishment of the institution, which is to be known as the Kennedy Memorial Home, as soon as possible. The splendid home which graces the estate will be retained by Mr. and Mrs. Kennedy as a place of residence during their lifetime. The first donation from a church organization to the project was made by the Vance-Institute Sunday School Association, of this county, which yesterday sent a cash contribution to Thomasville, to be set aside for the use of the new home.

Dr. B. W. Spilman, of this city, field secretary for the Southern Baptist Convention Sunday School work, has accepted an invitation to deliver the annual commencement address of the Newbern city schools on the night of May 30th.

In a shipment of goods which was received by Dail & Taylor, a haberdashery concern of this city, from a Cincinnati house, a note was found, bearing the following from a baseball fan of the Ohio city: "Send us another George Suggs and we will win the pennant." The praise of Suggs was not in the least undeserved, for it is evident that the Kinstonian is doing his full share towards making the Reds the flag winners.

The largest fruit crop, possibly, that Lenoir county has ever had is the prospect at present. Peaches, apples and berries will make record crops for this vicinity, and trees everywhere are loaded down with the young fruit. The reports from Greene and Pitt and the counties south of here are of similar conditions.

DR. FAISON'S RECORD.

He Has Made Good at the Nation's Capital—Some Measures.

(Special Star Correspondence.)

Rocky Point, N. C., April 30.—Has Dr. Jno. M. Faison as representative of the Third Congressional District "made good"? Well, we rather believe he has. He has been active in introducing many measures and successfully carrying them out. There is now being investigated a map of the soil survey of Pender through his efforts that will be of great value to home-seekers that are coming and will continue to come to this the garden spot of eastern North Carolina. Last year he was instrumental in having liberated in the waters of Pender, Duplin and Sampson counties hordes of shad that will in two years come teeming back into the rivers in which they were liberated. He writes that additional lots will be placed this Spring provided the government hatchery meets with its usual success. He will also have distributed millions of black bass, locally known as chub and fresh water trout, that game fish that makes the reel sing and bends the pole double when he strikes the fly.

Dr. Faison's investigation of "ox cart" schedules in the matter of transportation of truck and berry trains has amounted to thousands of dollars that have and will inure to the growers of truck and berries. He is in favor of and will vote for the Mints substitute bill now pending before Congress, a bill that appropriates $10,000,000 to unimproved post or rural route roads, as our part of the spoils (if it can be called such) to offset pensions and protective tariff that our Northern Congressmen are so freely bestowing on themselves and their constituents.

Dr. Faison is on the Merchant Marine Committee, a most important one. While he is not chairman, but simply "private high John", his voice carries conviction when he uses it in behalf of the people and where that "big foot" of his is planted it stands firmly.

VOTE TO SELL PLANT.

Election in Wadesboro for Sale of Light Plant Carried 162 to 28.

(Special Star Telegram.)

Wadesboro, N. C., April 30.—The election here today for the sale of the Wadesboro electric light plant carried by a good majority, 162 votes being cast for the sale with only 28 against it. This means that Wadesboro will in a short time have all the advantage that plenty of electricity gives a town. Of course, with plenty of electricity here, manufacturing industries will come to the best town in the State.

You will save five times four per cent. if you shop at Polvogt's during their May Sale. **

STORM IN NASH.

Severe Wind Storm in Vicinity of Rocky Mount Monday Afternoon.

(Special Star Correspondence.)

Rocky Mount, N. C., April 30.—Stormswept for a distance of more than ten miles into Nash county, this city was in the path of a small cyclone that visited this section yesterday afternoon and did considerable damage. About 4 o'clock a wind storm accompanied by considerable severe lightning, broke over this city and within a half an hour the electric light plant was out of commission, the telephone and telegraph lines badly damaged, while from all sides there came reports of minor damages within the city that had been worked by the severe wind. Fences, and billboards fared bad, and in some instances the roofs of small houses were blown off, trees were wrecked and the usual havoc of a miniature cyclone were worked.

In Nash county, about five miles fro mthis city in the neighborhood of the farm of Mr. R. H. Ricks, the path of the wind was about a mile in width and blowing in a northeast and from a southwest direction, it worked considerable damage and there is hardly a forest within this path that does not show considerable damage from the storm. On the farm of Mr. W. E. Fenner, the packhouse was unroofed while two of the tobacco barns on the home place of Mr. Cad Griffin were blown down and considerable damage resulted. The county roads in a number of places in Nash county were blocked immediately following the storm, by trees which it was necessary to cut out of the road or else detour around them, in some instances this not being possible. Thus far no deaths or injuries have been reported.

The electrical storm as well as the wind worked considerable hardship on the wire companies, the lines of the telegraph company working only partially, while the power and light circuits of the electrical company were off much of today, undergoing necessary repairs.

DON'T GROW BALD YOUNG MAN!

Take Care of Your Hair While You Have Hair to Take Care Of.

It's a safe ten to one bet that the young man who uses PARISIAN SAGE as an occasional hair dressing will never grow bald.

There's a reason, of course, and it's a very good and sufficient one.

Dandruff germs cause falling hair and falling hair means thinner hair and in due time baldness.

PARISIAN SAGE prevents baldness, by destroying the cause of baldness—the little persistent vociferous dandruff germ.

If you have dandruff or itching scalp it means that dandruff germs are sapping the vitality from the roots of your hair. Get rid of all hair troubles by using PARISIAN SAGE. It is not a dye, mind you, neither does it contain poisonous sugar of lead or even sulphur. PARISIAN SAGE is a scientific preparation that abolishes dandruff, stops falling hair and scalp itch, and makes hair grow lustrous and luxuriant.

The Naked Truth
DANDRUFF GERMS Did It

Many young women as well as men are growing bald and for the same reason.

Use delightful, refreshing PARISIAN SAGE; it nourishes the hair roots, if the roots are not dead, and brings to every user a head of glorious hair—radiant and fascinating. Large bottle for 50 cents at drug and department stores and toilet goods counters. See that you get PARISIAN SAGE. The girl with the auburn hair is on every carton and bottle.

R. R. Bellamy guarantees it.

How to be Certain of Curing Constipation

Prejudice is a hard thing to overcome, but where health is at stake and the opinion of thousands of reliable people differs from yours, prejudice then becomes your menace and you ought to lay it aside. This is said in the interest of people suffering from chronic constipation, and it is worthy of their attention.

In the opinion of legions of reliable American people the most stubborn constipation imaginable can be cured by a brief use of Dr. Caldwell's Syrup Pepsin. You may not have heard of it before, but do not doubt its merits on that account, or because it has not been blatantly advertised. It has sold very successfully on word of mouth recommendation. Parents are giving it to their children today who were given it by their parents, and it has been truthfully said that more druggists use it personally in their families than any other laxative.

Letters recently received from Mr. J. N. Catlett, Commerce, Ga., and Mrs. Rose Garvin, Ridgeville, S. C., are but a few of thousands showing the esteem in which Dr. Caldwell's Syrup Pepsin is held. It is mild, gentle, non-griping—not violent, like salts or cathartics. It cures gradually and pleasantly, so that in time nature again does its own work without outside aid. Constipated people owe it to themselves to use this grand bowel specific.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

Style That Stays Stylish

Copyright Hart Schaffner & Marx

YOU young fellows who know and like the smart distinction of style in the clothes we sell, can best understand why we say so much about quality.

You want style; but what's the good of style that doesn't stay stylish? Do you know what it is that keeps these

HART, SCHAFFNER & MARX

clothes looking well, even after a whole season's wear? It's the most important thing to know about clothes.

All-wool fabrics first—there are plenty of clothes that are not all-wool. Scientific shrinking by cold water; a process that cotton mixtures can't stand. The best tailoring; skilled hands shaping the garment, not just sewing seams together.

These are the things you get when you buy Hart, Schaffner & Marx clothes here. They're the things you want to get.

Smith, Gray & Co.'s Made-to-Order Clothes.

THE MORNING STAR

Published by the
WILMINGTON STAR COMPANY, INC.,
Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months, 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions, except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payments for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates, or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

Wednesday, May 1, 1912.

"Money makes the mare go," but it makes the automobile go faster than the mare.

Italy hasn't whipped the Turks yet because they won't come out of the desert long enough to get licked.

A Chinaman would think we are funny folks because we fence in big crops rather than fence in a small lot of stock.

The controversy between Roosevelt and Taft materially aids us in distinguishing the difference between sound and soundness.

Wilmington is spreading out towards the ocean. Wilmington also is going up in the air. The noise on new and taller buildings will be heard all Summer.

Caruso has been singing in Atlanta, but the Atlanta papers failed to say whether he monkeyed around any while he was in the "New York of the South."

Harry Thaw is again endeavoring to get out of the lunatic asylum. Several years ago the asylum furnished a mighty safe refuge for the slayer of Stanford White.

Big Business will get along right if it attends to its own business and quits electing Presidents, Congressmen and legislators. Big Business has itself made every enemy it has.

Ananias' mantle seems to have fallen upon the shoulders of some of the campaigners. In one instance, the ancient prevaricator's mantle evidently has been mistaken for the one so honorably worn by Abraham Lincoln.

The Hon. Locke Craig, of Asheville, will deliver the Confederate Memorial address in Raleigh on the 10th of May. Mr. Craig is no stranger in Raleigh, but his audience there on the 10th will learn that it is on such occasions that North Carolina's next Governor is at his best.

Wilmington truckers on Saturday and Monday shipped 18 carloads of lettuce valued at about $14,000. That is only two days business in one product right at home, while no mention is made of the thousands of dollars worth of other truck going daily from Wilmington and a region covered by several counties representing the choicest of the Nation's Garden Spot.

It is announced that the rubber trust has declared a whopping big dividend. Millions of us are not interested in the dividend but Senator Aldrich is. He s one of the class of men whom the Republicans place in charge of the bills to tax the people. We are surprised that there is a Republican voter in the country, except those who get the benefit from taxing all the people for their benefits.

The judicial Taft knows the great value of an alibi and he worked it to perfection in disproving one of Roosevelt's false statements a few days ago. In attempting to make President Taft equally as guilty as he was when Roosevelt suppressed the suit against the Harvester Trust, the Rough Rider declared a few days ago that Taft, then Secretary of War, in a cabinet meeting offered the motion approving the action of President Roosevelt in shielding the Trust. President Taft has retorted by proving from the records of the War Department that at the cabinet meeting spoken of and at the time the suit was held up, Secretary Taft had been absent from the country for four months on his trip to the Philippines and Japan. Who's the prevaricator now?

PRIVILEGE'S BATTLE ROYAL.

The battle royal between the grand moguls of privilege waxes warmer and hotter. The bitter fight between Col. Roosevelt and President Taft grows more bitter day by day. It now seems to be a fight to the finish, and it probably will not be finished till the final roll is called in the National Republican Convention which meets in Chicago on the 18th of June.

No such spectacle was ever witnessed in George Washington's Republic as that in which the injudicious Rough Rider and the Judicial Taft are playing the part of gladiators. Col. Roosevelt threw his hat into the ring for a bout, and notwithstanding his pretentions that he wanted it to be "a campaign free from personalities," it is evident that he intended to provoke just such a disgraceful controversy as the people of the United States and the world are witnessing. His prize fighting vernacular was indication enough of what might have been expected, and if he was really hunting for a fight when he flopped his headgear into the ring he surely is getting accommodated.

The Colonel nagged the big man into getting into the ring with him and his hat, and to unprejudiced onlookers he surely is getting the flies fanned off him by his opponent. Both have hit some solar plexus blows, but in a matter of very serious import the President has the Rough Rider on the defensive. Nevertheless, a large portion of the rabble is right at the heels of the Colonel and it yells when he thinks he has "soaked 'em over the ropes." In the eyes of an unprejudiced public, the Colonel is inconsistent in his assertion that he has received "a crooked deal" from Taft. On the contrary, the President never got a "square deal" from his former bosom friend. Here is the way the Standpat New York Tribune talks of it:

"Those who are most sincerely and intelligently appreciative of Colonel Roosevelt's past services to the country most clearly realize that as an answer to President Taft's complaint that he has not received 'a square deal from the apostle of the square deal' the colonel's Worcester speech is a failure. It does not meet the real points at issue. The colonel's reference to the Lorimer case is a typical instance of that failure. He had given the weight of his authority to the insinuation that because Senator Lorimer is for Mr. Taft Mr. Taft must be for Senator Lorimer. That insinuation was launched in spite of the fact that Col. Roosevelt had received written assurance from the President that he was against the Illinois Senator and hoped to see him unseated. Col. Roosevelt does not deny that he sinned against knowledge in suggesting a community of interest between the President and Lorimer."

Col. Roosevelt's Lorimer charge was made in spite of the fact that some time ago in their private correspondence. President Taft expressed himself as opposed to Lorimer and hoped for his overthrow. In spite of having that from the President, in black and white, the Colonel took an unfair advantage in ringing in the Lorimer matter, and when the President called his attention to their private correspondence in that particular, he piled one injustice upon another in coming back in this style:

"Mr. Taft says that in my various campaigns I accepted the assistance of these bosses. So I did when they chose to go my way and to support the cause of the people. The trouble with Mr. Taft is that he gets their assistance at the price of going their way and opposing the cause of the people."

It seems that all sorts of crooks can support the Colonel without his repudiation of their support, but if one of the Lorimer kind happens to favor Taft without being invited, the self righteous Colonel takes it for granted that the President is in league with Lorimer. The fact is, the Colonel never gave the President a square deal in that matter, in spite of the fact that he had the President's letter some time ago denouncing the Illinois Senator and his methods of being "put over". It certainly is taking a mean advantage, but probably a trick like that will not hurt the Colonel a bit.

In another instance. Col. Roosevelt attacked Taft's tariff record, yet while all the tariff fight was on in 1909 the Rough Rider was assenting to the whole thing. Even till recently he studiously avoided mentioning the tariff and nobody yet knows how he stands. Yet though he attempts to make capital out of Taft's unfortunate record as to tariff reduction. However, Roosevelt seems to have overlooked the fact that he actually endorsed Taft's administration, tariff and all, after the Payne-Aldrich bill had been passed. The Tribune calls his attention to that slip-up in the following:

"Col. Roosevelt accuses Mr. Taft of not having carried out the policies which he inherited from the Roosevelt administration. But he carefully avoids specifications. Why doesn't he show in what particulars the performance of the Taft administration has fallen short. In the New York Republican State platform of 1910, drawn under his supervision, a complete and admirable summary was made of the results accomplished by the Republican party under President Taft's leadership. Even the Payne tariff law, which Col. Roosevelt now says the President stultified himself in signing, was cordially approved in the Saratoga platform. Mere recrimination cannot break the force of the just complaint which the President has put on record. In what respect has his stewardship been unfaithful? Col. Roosevelt praised that stewardship unstintedly in September, 1910. On what grounds (not purely personal) does he now hold that President Taft is getting the assistance of the bosses 'by going their way and opposing the cause of the people'? Unless he can make a more convincing showing the voters will properly conclude that not going blindly his way is in Col. Roosevelt's eyes the damning sum of Mr. Taft's offending."

Worst of all, President Taft has floored the Colonel by proving an alibi as to approving President Roosevelt's action in calling off the prosecution against the Harvester Trust. Contrary to Roosevelt's assertion that Taft was present and approved it, Taft shows by a statement given out on Sunday that he was absent from this country at the time.'

What does it amount to, this exposure of the inconsistency of Roosevelt in endorsing Taft's tariff policy in 1910 and now repudiating his own endorsement? The truth is, he found a change in public sentiment and he seized it to beat Taft and regain the Presidency. Can such a mountebank win with his perfidy and inconsistency against even the impossible Taft?

COMMITTEE ON DIVERSIFICATION

When we consider the fact that this region on the South Atlantic is capable of producing hundreds of crops not now grown by our farmers, we can realize how limitless are our possibilities for the wide diversification of our agriculture. Many crops which can be profitably grown here are not thought of, or are unknown to most farmers, so that they confine themselves to cotton, tobacco, peanuts, corn, truck and other well known crops. Those splendid money crops within themselves offer a greater opportunity for profitable diversification than is available anywhere else in this country, but literally there are many more money crops that could be introduced.

Since what is everybody's business is nobody's business, it would be a good idea for our commercial bodies and farmers' unions to make a study of diversification. They could appoint committees to take that matter in hand, and watch carefully for any product that they think could be profitably introduced. The Chamber of Commerce of Florence seems to be doing in a way what we suggest, for that body has interested itself in diversification to the extent that it is encouraging the farmers to grow broomcorn. Says the Florence Times:

"The Chamber of Commerce has received a shipment of broomcorn seed for distribution among farmers who desire to experiment with this very profitable crop. Those who have arranged to put out a quarter of an acre can get the seed by calling at the office of the Chamber. Twenty-five or more farmers have indicated their intention of putting out an experimental patch and others no doubt will want to do the same. Broomcorn is cultivated very much the same as Indian corn in drills about four feet apart and can be made a very profitable crop in this part of the country if properly handled. One acre, under fair conditions, will produce one ton of brush. The price of brush ranges from $80 to $140 per ton. Just now it is selling above $100. The cultivation of the crop and preparing it for market requires about the same amount of work as that of the corn crop."

This whole region is peculiarly adapted to the production of broomcorn and The Star has before called attention to the fact. In the West it is an exceedingly profitable crop, although only one crop a year is grown, while in eastern North Carolina we can get two cuttings from one planting. We have seen it done in portions of the South where the advantages are not so favorable as they are right here in eastern North Carolina. Bottom lands produce luxuriant crops of broomcorn, and our swamp lands, when drained, would be ideal for such a crop.

We see no reason why this should not also be a flax producing country. That industry is growing in the United States, and many of the Northwestern farmers are getting rich from the sale of flax and flaxseed. We mention these two products just to suggest that there are many others that we ought to know about.

OUR FERTILE SWAMP LANDS.

Mr. J. A. Bonsteel, of Washington, D. C., a scientist of the United States Department of Agriculture, had a fine opportunity a few days ago of observing in a practical way the value of the drained lands of the swamp region of this portion of the South. As stated in The Star of the 24th instant, Mr. Bonsteel has been making a tour of the trucking region of the tidal country from Savannah to Norfolk, for the purpose of following up the government soil surveys with a view to making observations of the crop production and farming methods of the various sections. He has finished his work around Wilmington and gone further northward on his interesting and important mission.

While here Mr. Bonsteel made numerous interesting observations, and quite fortunately he was in the strawberry section at the time the fruit began to move to the Northern markets by solid trains made up of refrigerator cars. It was exceedingly interesting to him, but it can be ventured that it was not more so than the opportunity he had to see a growing crop on some of the drained swamp lands of this region.

At the Burroughs and Collins Company's farm in Horry county, Mr. Bonsteel saw a hundred acre tract of drained swamp land planted in Irish potatoes for the first time. The crop was looking splendidly and within two or three weeks the company will begin to ship its product. It is estimated that the yield will be not less than 60 barrels of potatoes per acre. That would mean a total production of 6,000 barrels, which at the present market price of $6 per barrel, would represent a gross value of $36,000. Thus the crop promises to yield $360 per acre, minus expenses.

The lump sum of $36,000, or even $24,000 if the price should decline to $4 per barrel, looks pretty big for a hundred acre farm, but it will represent only the first crop of the one season to be produced on the same land. Since this is a region where from three to five different crops a year can be grown on the same land in one season, the Burroughs & Collins Company's crop of potatoes will be harvested in time to plant a portion of the land in cotton and the other portion in corn, or other crops, as may be preferred. However, the present plan is to make the second planting in corn and cotton. A crop of hay or some other fall crop can be grown after the corn crop is gathered.

The point which we desire to emphasize here, however, is the great value of our fertile swamp lands after they have been properly drained. If the 3,000,000 acres of North Carolina's rich swamp lands were drained, contemplate for a moment what immense production they would be capable of under our system of growing two to three crops in one season!

The humbug makes things bum in politics.

We thank Mr. George W. Perkins for butting into the Roosevelt-Taft fight and giving to the press his attack on Roosevelt's managers for their fight on Roosevelt. Mr. Perkins' letter confirms the fact that the trusts elected both Roosevelt and Taft. As a prominent figure in the Steel Trust, the Harvester Trust and the Money Trust, Mr. Perkins finally financed a deficit of $15,000 owed by the National Republican committee at the end of the Taft campaign in 1908. Mr. Perkins' frank statement as to how the trusts figured in electing Republican Presidents is too bold to be called effrontery.

CURRENT COMMENT.

Mr. Andrew Carnegie says that he and Mrs. Carnegie have passed 25 years together without an angry word or a moment's misunderstanding. That shows what an amiable lady Mrs. Carnegie is.—Newport News Times-Herald.

While hundreds of newspapers and magazines have given marked attention to the Woman's Monument recently unveiled, both on the editorial and pictorial pages, the half-page devoted to the illustration and inscriptions in Collier's Weekly, the page in the National Magazine of Boston, and the half-page in the Art Supplement of last Sunday's New York Times are the most conspicuous.—Columbia State.

Many of the fruits of the earth were worthless until the advent of machinery. Cotton was not then a great crop. The conversion of it into usable forms was onerous and impracticable. In those days every community was forced to be self-supporting. There was no need to urge the planting of corn, for corn could not be brought from the West in fast trains. Planters had to go in for diversified planting.—Charleston News and Courier.

Governor Kitchin opens his campaign in Mecklenburg county with an address in the court house tonight. This is the first real invasion into this community on the part of any of the three distinguished sons of North Carolina who seek the nomination for the United States Senate. Whether all of Charlotte agree with the Governor in his views or will support him in the campaign, all of Charlotte will extend him a royal welcome to the Queen City.—Charlotte Observer, 30th.

"What is the use of letting arable lands lie absolutely idle?" The Good Citizenship League, a woman's organization, put the question to the owners of vacant lands and lots on Long Island. They had no satisfactory answer to make. "Then why not let somebody plant the land who can and will make something on it?" was the next question of the women. Again there was no answer. The upshot of the conference, however, was that several owners of unoccupied parcels of land have agreed that it may be farmed, with the distinct understanding that they shall have possession upon demand.—Savannah News.

The work of forest denudation steadily goes on. There is small reason to doubt that floods are increasing. The Mississippi river at present is sweeping millions of dollars' worth of property to destruction and is battering down realty values in dozens of cities and towns. With bigger floods there are bigger losses, and in the aggregate they are past computation. When these things, along with a thousand others incident to the problem are considered Senator Newlands' plan of spending $50,000,000 a year for ten years for flood protection does not seem so extravagant as it otherwise might appear.—Louisville Courier-Journal.

Mr. and Mrs. W. L. Kennedy, of Lenoir county, widely known and highly esteemed throughout the State, have given their beautiful home, "Cedar Dell," and rich farm, near Falling Creek, to the Baptist Orphanage at Thomasville. The farm has 1,200 acres of the richest land in all eastern North Carolina, and the home and improvements have cost $30,000. The condition of the gift is that a branch of the orphanage be established on the farm. The trustees of the orphanage have accepted the gift with grateful appreciation to the generous donors. This new home for fatherless children will be called the "Kennedy Memorial Home." New and modern buildings will be erected, and for all time the bright youths who will be cared for and educated there will bless the name of Mr. and Mrs. W. L. Kennedy. They have no children of their own, and they have nobly planned to give comfort and education to thousands of children in all the years that are to come.—Raleigh News and Observer.

MR. SINCLAIR'S POSITION

Writes In Reply to Mr. Godwin's Last Letter—Politics

Fayetteville, N. C., April 30th.

To the Editor:—I have a good many inquiries as to why I had not answered Mr. H. L. Godwin's last letter. I want to say through your paper that there were first two reasons. The first is that he did not answer one thing in my letter. He just contented himself in calling me names and indulging in low, vulgar abuse. I did not care to condescend to reply in kind. A child or a fool can call names and use billingsgate. I have never indulged in personalities. I carefully refrained from attacking Mr. Godwin's personal character, although I have the proof that he and his subsidized agents have been industriously carrying on a campaign of slander against my private character. I shall not retaliate until I decide it has become necessary to do so. I attacked his political methods and practices on account of the use of money with political bosses. He has not attempted to defend his practices. He says he did not use money to improperly influence primaries. My reply is that it would not be proper for him or me to be the judge of that. Let the people—the voters—be the jury, and let him file a sworn itemized statement of all the money he paid and to whom he paid it two years ago to secure his nomination. I dare and defy him to do this, naming all items and persons, cash, notes, acceptances, protested checks, mules, etc.

If the honest voter believes in these practices, then he has the opportunity to show what his standard of political morality is.

In the second place, prior to the meeting of the State Executive Committee, I called attention to the fact that Mr. Godwin wanted to call a snap primary and wanted the District Executive Committee to disfranchise the County Executive Commttees by taking away their power to name the pollholders at the primary. Of course, if Mr. Godwin controlled a majority of the district committee, as his agents openly boasted that he did, he could name all the pollholders himself, who would carry out his orders. I said in my letter that his political representatives boasted that he could control the majority of the committee, but that I did not believe it. My prediction proved true. The District Committee by its action proved that Mr. Godwin's agent's boast was a brutal untruth, as he failed to control the committee by a majority of one.

This is all the reply that I think that Mr. Godwin's abuse and misrepresentations, misquotations and garbling and twisting of my words into false and misleading meanings requres.

N. A. SINCLAIR.

STRANGE CASE.

Of Portland Woman—Could Not Even Eat Toast.

Portland, Me.—The remarkable case of Mrs. J. Richard White has attracted much attention as she was in bad health for a long while.

Her husband says "My wife suffered intense agony from this dreadful sickness, indigestion, and could not even eat a piece of toast without suffering. Five doctors here failed to help her.

"While in Fall River I met a gentleman who spoke highly of Vinol so I got her a bottle and before it was one-third gone she saw a vast change.

"She has just finished her first bottle and is feeling and looking better than ever before. It is certainly making her eat. Instead of eating one meal every three or four days she eats three or four times a day.

"She has gained nine pounds already and has improved 100 per cent."

We guarantee that Vinol will build you up, sharpen your appetite and give you new strength if you are weak and rundown. If it does not we pay back your money. Robt. R. Bellamy, Druggist, Wilmington, N. C.

THE BOULEVARD PROJECT

Interesting Correspondence Between Capt. R. B. Davis and Congressman H. L. Godwin Relative to the Matter.

Residents of the two handsome suburban sections known as Carolina Heights and Carolina Place are contemplating a great beautification scheme for their delightful portion of the city, and when their plans are finally matured and announced they will be of great interest to the citizens of Wilmington.

Meanwhile, the one object which will mar the effectiveness of their plans is the National Cemetery in its present condition, and, as has been previously announced, a movement is on foot to obtain a government appropriation for improving the burying ground.

Naturally, the cemetery is a pretty spot, but since the elegant suburban quarters have sprung up around it the residents would like to have the government do something to make the cemetery comport with the surroundings. It was decided to request the government to construct a boulevard clear around the cemetery, and it was for this purpose that Congressman Godwin a few days ago introduced a bill appropriating $10,000 for such improvement. The following correspondence led up to Mr. Godwin's prompt action in the matter and will be of interest in this connection:

Captain Davis' Letter.

Wilmington, N. C., April 15, 1912.

Hon. H. L. Godwin, Washington, D. C.

Dear Sir:—At the instance, more particularly, of the large and increasing number of residents and property holders of "Carolina Heights" and of "Carolina Place," and, in a general way, of the entire citizenship of Wilmington, N. C., I write to interest you in procuring an appropriation by Congress of as much as $10.000 for constructing a boulevard, with suitable ornamentation arcund the National cemetery here. Within this cemetery are 2,346 interments, and many of these, as I am informed, were removals from the field in front of Fort Fisher. The total length of a boulevard, ordinarily, around, it would be approximately, 800 yards.

The two beautiful suburbs of the city of Wilmington, known as "Carolina Heights" and "Carolina Place" are located at the eastern extremity of its Market street, and are occupied, chiefly by dwellings of the latest style and construction. They are, at this time, among the finest residential sections of the city. Each of them, but on different sides, abuts against the cemetery, and improvements on both of them are being rapidly extended to its very walls. It is needless, therefore, that I should say how greatly indebted to you, those for whom I speak, will be for anything the National government can be induced to do toward beautifying its own portion of this locality.

In its present condition, the cemetery itself, as seen from the outside, is little less than an eyesore to all beholders. Its enclosure is well kept. But the exterior aspect is unsightly, even in front, while in flank and rear it is positively repulsive. And this is made more painfully apparent by contrast with the handsome structures that are going up, in every direction, upon the adjacent grounds. And so true is this that it is questionable if there be, throughout the whole country, another National cemetery that is so much overlooked and neglected as is this one.

If you are inclined to take up and push this matter, you will be furnished with any further information you may require. Or, if you could make it convenient to visit these grounds, your own personal inspection of their condition would convince you of what ought to be done. In either case, I beg to anticipate your favorable reply.

Very truly yours,

R. B. DAVIS.

Mr. Godwin's Reply.

Washington, April 25, 1912.

Capt. R. B. Davis, Wilmington, N. C.

My Dear Friend:—I have the honor to acknowledge receipt of your kind favor of the 15th instant, in which you request me to introduce a bill in the House of Representatives for the purpose of appropriating ten thousand dollars ($10,000) to be used in constructing a boulevard, with suitable ornamentation, around the National cemetery in Wilmington. I note that there is a large number of property holders in and near the two new sections known as "Carolina Heights" and "Carolina Place" and that those citizens together with the people of Wilmington generally are very anxious for this appropriation. I also note that buried within the cemetery are 2,346 soldiers who lost their lives in the battle of Fort Fisher. This is all very interesting to me and I am of the opinion that Congress should make the appropriation. For your information I desire to state that I am preparing a bill which I will introduce in the House of Representatives tomorrow looking to the appropriation of ten thousand dollars ($10,000) to construct this highway. I will have the bill referred to the proper committee and I shall thank you to co-operate with friends who are interested, and get up sufficient evidence to serve the committee in making a favorable report on the bill.

Assuring you that I will be very glad to do anything I can for you or the people of Wilmington, I am,

Very truly yours,

H. L. GODWIN.

CANDY DEMONSTRATION.

Orton Confectionery Shows How the Sweetmeats Are Made.

An interesting sight to the average person can be seen these afternoons in the large front windows of the Orton Confectionery, being a practical demonstration in candy making by an expert caterer to the "sweet tooth" of candy eaters. Delectable and dainty sweetmeats are "made while you wait", at a truly marvelous speed, being turned out by this adept as fast as three girls can wrap them.

The growing popularity of "E. Dinos Candies" has made it necessary to employ a candy maker regularly, which insures their customers the freshest and best candies to be had at all times.

Great crowds throng the big store. It is Rehder's Annual May Sale. 10 yards best 10c bleaching 69c. **

CARDINAL GIBBONS LEAVES

Distinguished Visitors Departed Last Night on Private Car of President T. M. Emerson—Entertained Handsomely Yesterday.

Following a quiet and restful day, after being entertained in the morning by Mr. James Sprunt, and in the afternoon by Mr. M. J. Corbett, James, Cardinal Gibbons, who has been a guest of the city since Saturday morning, in connection with the dedication of St. Mary's Pro-Cathedral, left last evening at 7 o'clock for Baltimore, as the guest of President T. M. Emerson, of the Atlantic Coast Line, in his private car. Accompanying the cardinal were Rev. Father Stickney, his secretary; Monsig. Kieran, of Philadelphia; Rev. Father Doherty, of the Catholic University, Washington, D. C., and Rev. Father O'Farrel, of Petersburg.

Yesterday morning His Eminence was entertained informally by Mr. James Sprunt, at the handsome home of the host, on South Front street, and the visit was of especial interest to the cardinal, for it was here that he made his home when stationed in Wilmington as Bishop of North Carolina, over 40 years ago. In the party in addition to His Eminence were Monsig. Kieran and Rev. Father C. Dennen.

After several hours had been spent very pleasantly talking over old times and indulging in reminiscences of the days so long ago, Mr. Sprunt entertained the party on an automobile ride to Wrightsville Sound, and this was also much enjoyed.

At 1 o'clock yesterday afternoon Mr. and Mrs. M. J. Corbett gave a luncheon at their beautiful home, 119 South Fourth street, in honor of the cardinal, and a number of the visiting clergy. Among those present were: Cardinal Gibbons, Monsig. Kieran, Rev. Father Doherty, Rev. Father O'Farrel, Rev. Father Stickney, Rev. Father C. Dennen, Messrs. H. C. McQueen, T. M. Emerson, Jas. Sprunt, M. W. Divine, Hugh MacRae, J. Allen Taylor, Jos. H. Watters, Geo. B. Elliott, Esq., and Ex-Judge E. K. Bryan.

Cardinal Gibons enjoyed to the utmost his visit to Wilmington and renewing his old friendship with the people he used to know, when a resident of the city himself, or meeting the grown children of thone former friends.

He was very much struck with the wonderful development of the city and section, and expressed himself to friends as of the opinion that Wilmington has a great future.

All the other visitors left for their respective homes yesterday. One and all they are enthusiastic over the beauty of the new cathedral, the dedication of which brought them to Wilmington, and practically all of them stated that it will compare favorably with any religious structure in the entire South.

PICNIC AT BEACH

Salvation Army Sunday School to Enjoy An Outing Today

The first of the various Sunday school picnics to Wrightsville Beach, given to the children of the various Sunday schools of the county each year through the courtesy of the Tidewater Power Company, will be held today, when the children of the Salvation Army Sunday school will enjoy the outing.

Cars for the picnic will leave Front and Princess streets at 10 o'clock this morning, and will make no stops between the city and the beach. All the children will board the cars at the junction. Adjutant Mataxas will be in charge of the young people for the day and a most enjoyable outing is assured. It is expected that there will be about 150 children on the outing.

The day will be most pleasantly spent at the seashore, with the picnic dinner as one of the most enjoyable features, of course. The party will return to the city some time in the late aftrnoon.

Othr picnics will follow in rapid succession until every school in the county has enjoyed the annual outing.

HEAVY FALL OF HAIL.

Pronounced Storm Here Yesterday Morning at Early Hour.

Early risers yesterday morning and those who had turned over in the comfort of their slumbers for a last nap before the break of day witnessed, or rather, heard for a few minutes one of the hardest hail storms this section has experienced in some time. It was accompanied by a heavy downpour o rain and some display of electricity, but fortunately no damage was done. Inquiry in the East Wilmington and other trucking sections of the county elicited the information that lettuce, cabbage and beets had escaped with no damage, while from the strawberry belt there were no reports during the day of any considerable damage. This was exceedingly fortunate as the crop is just now in its full fruition and the shipments from the Chadbourn section alone are reaching towards 100 car loads per day. The hail stones in Wilmington were as large as marbles, but the fall lasted only a minute or two.

Lettuce Shipments

Shipments of Spring lettuce from this county continue to go forward in carload lots, but the prices yesterday showed some break, sales being reported of good stock at as low as $1.75 per basket. Three carloads were shipped from the East Wilmington section Monday and a car yesterday evening. The crop this year has proved very satisfactorily thus far.

Opening of Polvogt's May Sale Today.

Our many readers will no doubt attend the opening day of the Polvogt Company's annual May Sale, who are offering attractive bargains for their many friends and customers. $1.00 white parasols 50c; ladies' $4.00 Taffeta or Messaline skirts for $1.98; $1.50 crepe kimonas for 9c.; $1.35 carpets for $1.05; $1.25 table damask for 98c; 65c dress goods for 44c; and a thousand other things at Bargain prices. Sale May 1st to May 11th. **

BAZAAR WILL OPEN TONIGHT

Annual Event at Boys' Brigade Promises to be More Interesting Than Ever Before—Some of the Many Features.

All is in readiness at the Boys' Brigade for the opening of its annual bazaar tonight. The booths are all beautifully decorated as well as the walls and ceiling and other parts of the auditorium where the bazaar will be held, and it presents a really beautiful appearance. The decoration scheme is bamboo and roses and the room presents the appearance of a great rose garden in full bloom and has a very realistic effect.

The booths have a ground work of pure white with the same decorations as the walls and all are very pretty. The large reception room just to the rear of the main auditorium will also be carefully decorated and will be used as the ice cream parlor this year. This room seats about 60 people comfortably at tables and is free from the jostle of the crowd which is very desirable while eating cream and chatting with friends or one's best girl. The candy booth is decorated in pure white without any additional decoration and it is beautiful in its simplicty. Only home made candy will be sold and as this will be made by one of the committee who enjoys a local reputation for making delicious candy it should go fast.

The country store is also decorated daintily this year in contrast to the rough manner of the past, and it is very attractive, especially with its shelves overflowing with a splendid line of groceries and canned goods of a high grade. Many expensive gifts to the country store were made this year by the merchants and there will be many great bargains of this character instead of only a few, as in the past. The fancy goods booth also presents a splendid assortment of goods most of which is hand made and much hand embroidered and delicate and beautiful as well as useful. The prices will not be high for the class of goods offered at this booth so that some rare bargains will be secured at this booth also.

In addition to the booth features of this bazaar there will be a very fine musical programme every night by some of Wilmington's most talented and popular musicians and other entertainers. The programme tonight presents Miss Gertrude Sneed, who will sing a soprano solo; Miss Katie Ford, piano solo, a quartette composed of Mesdames F. A. Muse and J. J. Loughlin and Messrs. W. B. Muse and Chas. Dushan, and a violin solo by Mr. J. C. Adkins, leader of the Academy orchestra. This feature will begin at 9 o'clock and the fun will continue until 11 each day of the bazaar. Each booth will have a bevy of beautiful young ladies or coterie of young gentlemen to assist in making the evening pleasant for those who attend and incidentally to relieve you of your spare cash all of which is a part of the fun. However, whenever you spend any money at this bazaar you are assured that you will get your money's worth so do not remain away under the impression that you are up against a bunco game for this is not that kind of sport.

The motto of each one having any official connection with this bazaar is "a good time for all", and all are urged to attend and enjoy the fun.

A splendid orchestra will dispense sweet music during the evening to assist in keeping things lively and pleasant. Admission will be ten cents. Everybody should go to the Boys' Brigade this week.

INTEREST IS GROWING

Revival Meetings at Grace Methodist Church Are Well Attended

Interest is growing in the series of revival meetings which started Monday night at Grace Methodist church, and all of yesterday's services were well attended, particularly the service last night at 8 o'clock, when Rev. E. K. McLarty, who is assisting Rev. J. C. Wooten, the pastor, preacned a thoughtful and impressive sermon on "The Power of Prayer." Much interest was manifested by the large congregation and the outlook is bright for one of the most successful series of meetings in the history of the church.

Services today will be as follows: Girl's service at 3:30 and boys' and men's service at 7:45, each conducted by Rev. W. S. Jacoby; regular services at 4 and 8 o'clock, conducted by Mr. McLarty. All are invited to attend.

Raising Grade of Tracks.

A large force of hands were busy yesterday and a part of last night in raising the grade of the extensive network of tracks of the Tidewater Power Company, on Front, between Princess and Market, to make them conform to the grade for the new pavement that will soon be put down there. The work is being done by a large force of both negro and Siberian laborers under the direction of Capt. Dooley, track foreman of the Tidewater Company.

Auto Supply Station.

At Delgado, nearly in front of the mill entrance, on the Wrightsville turnpike, the Cape Fear Oil Company is installing an up-to-date gasoline supply station for the benefit of the hundreds of automobilists who pass there daily. The station will supply gasoline and oils in quantities as needed by an automobile register. The station will prove a decided convenience for drivers generally.

Today is opening day of the Polvogt Company's Big May Sale. **

A Safe, Conservative and Progressive Bank

TO PROTECT FOOD SUPPLIES

City Council Passes Very Comprehensive Measure Regulating Sale of Products and Requiring Sanitation.

At the regular session of the City Council yesterday afternoon, a very comprehensive ordinance regulating the sale of food products and providing for better sanitation in restaurants, hotels, at soda fountains, etc., was unanimously passed, to be effective on June 1st and to supersede all other enactments covering these subjects.

The ordinance was drawn by Assistant City Attorney Peschau after a careful study of similar regulations in a score or more other progressive municipalities and with the approval of the Health Department, it was presented by Councilman B. C. Moore and was unanimously passed. Dr. Nesbitt, superintendent of health, spoke to the ordinance during the session of Council and said that while the measure was not as sweeping as might be desirable, in that it did not touch the subject of food adulteration and the protection of food supplies from dust, it had been drawn as a step toward a betterment of conditions and he believed that it would work a hardship on no one. City Attorney Peschau also spoke in explanation of the ordinance, stating that the law had been drafted with the widest possible latitude to dealers and others and with an eye single to the betterment of health conditions generally. The full text of the ordinance is as follows:

An Ordinance to Establish Regulations where Food and Drink for Human Beings are Manufactured, Kept, Prepared or Sold.

Section 1. Be it ordained by the Council of the City of Wilmington, N. C.

Every person, firm or corporation, keeping, maintaining or being in charge of any factory, public or private market, stall, shop, store, warehouse, cold storage, cart, wagon or other vehicle, in or from which any meat, meat products fish, oysters, or other sea food, game, birds, fowls, fruit, berries, vegetables, bread or bakery products milk or milk products, ice cream, soft drinks, candies or other articles of substances, intended for human consumption, are manufactured, held, kept, stored, exposed or offered for sale or distribution, shall keep the same in a clean, pure and wholesome condition.

Section 2. All meat, meat products, fish and other sea food, vegetables, berries, fruit and other articles or substances of food or drink heretofore mentioned in Section 1, stored, kept or exposed for sale, within the City of Wilmington, shall be kept not less than two feet above the floor of the building, shop or place where they are so exposed, unless such articles or substances are covered, cased or stored so as to be inaccessible to the excretions of dogs.

Section 3. No person, firm or corporation shall at any time within the period beginning the 1st day of April and ending the 1st day of November, in any year place, keep or expose, offer, or prepare for sale, or sell, or store, pending sale, any article or substance of human food or drink in any building, premises or place in the city, where such articles or substance is not, at such times, so screened so as to prevent flying insects from having access to such article or substance. And no person, firm or corporation shall, at any time within such period in any year, bring into the city for sale or carry, or convey or cause to be carried or conveyed upon, along or over any street, alley or way in the city, any article or substance of human food or drink for the purpose of offering or exposing for sale or storing for sale, or which is at such time in course of delivery after sale, unless such article or substance of food or drink, at such times, be covered, screened or otherwise protected in such manner as not to be accessible to flying insects; provided, however, that no provision of this section shall apply to or affect any article or substance of human food or drink which shall at such times be in unbroken packages or containers tightly closed.

Provided further, that the following foodstuffs shall not be deemed subject to contamination from flying insects or shall not be required to be covered, towit: watermelons and other melons, when unsliced, oranges, lemons, potatoes, cabbages, collards, carrots, turnips, parsnips, onions, squash and pumpkins and bananas.

Section 4. The dining rooms of all public eating houses, hotels, boarding houses, restaurants, lunch rooms and the kitchens thereof, all bakeries, confectioners using soda fountains, delicatessens, meat markets and places where milk is bottled or exposed for sale, shall, during the season, prescribed in Section 3 hereof, have all windows, doors and openings therein properly screened so as to exclude flies from such places.

Section 5. It shall be unlawful for any person, firm or corporation to bring into the City of Wilmington for sale, or to sell or have in possession for sale therein, for human food, any diseased, tainted or unwholesome meat of any kind. And all police and health officers of the city are empowered and commanded to seize all such food supplies where the same are found or appear to be diseased, or in the odors of putrefaction plainly exist therein, or where the same are kept in unclean bad-smelling refrigerators or in unclean or bad-smelling storage rooms or places; or whenever or wherever it is found or appears, that the carcass or parts of carcass of any animal which has been slaughtered, prepared or kept under any one or more of the following sanitary conditions: (a). In a slaughter house dilapidated and in a state of decay; (b). Where the drainage of the slaughter house or slaughter house yard is not efficient. (c). Where maggots or filthy pools or hog wallows exist in the slaughter house yard or under the slaughter house. (d). Where the water supply is not pure and unpolluted. (e). If hogs are kept in the slaughter house yard, or fed therein on animal offal—and such articles so seized shall be delivered forthwith to and before the Recorder, or some Justice of the Peace, together with all information obtained.

Section 6. No unsound, stale, rotten, fermented, diseased, nauseous or unwholesome fish, oysters or other sea food, vegetables, berries, melons, fruits or other articles of food or drink, shall be brought into the city for sale or distribution as human food or drink nor shall the same be so sold, exposed for sale, prepared or offered for sale, within the city, upon any street, way or premises, or in any market, stall, shop, warehouse, cold storage, hotel, boardinghouse, restaurant, lunch room or other place of business, or from any cart or vehicle therein.

Section 7. Whenever any health officer or agent of the Board of Health shall find in or upon any of the places or vehicles, mentioned in Section 6 hereof, any rotten, diseased, nauseous or unwholesome foodstuff or substance, intended for human food or drink, it shall be his duty to notify the owner, manager or person in charge of such article, place or vehicle, to remove such foodstuff or artice to a place designated or some proper place and destroy the same. And such owner, manager or person in charge shall at once remove such foodstuff or article to the place designated or some proper place and estroy the same, or such health officer or agent of the Board of Health may seize such foodstuff and destroy it.

Section 8. No person, firm or corporation owning, managing or in charge of any restaurant, hotel, boarding house, lunch room, ice cream parlor, soft drink stand, or other place where food or drink is sold, served or prepared, shall keep such place in a filthy or unsanitary condition. And all persons employed in or about such places shall keep themselves and their clothing in a clean, sanitary and healthful condition. No person suffering from tuberculosis, any venereal diseas or any other communicable disease, shall be employed in or about such places in any position which will bring him or her in contact with such food or drink.

Section 9. No meats, fish, game, bakery products, milk or milk products, soft drinks, ice cream, candy, fruits, confectionery, vegetables or other foodstuffs shall be prepared for sale, kept for sale or sold in any room in which a toilet is located, or any room opening directly into a toilet room unless there is outside ventilation to such toilet room.

Section 10. It shall be the duty of the health officers of the city and agents of the Board of Health to visit at frequent intervals each public and private market, stall, shop, store, storehouse, cold storage, warehouse, canning factory, hotel, boarding house, restaurant, lunch room, soft drink stand, bakery, ice cream factory or parlor or other place of business covered by this ordinance, in the City of Wilmington, and to inspect each, and all wagons, carts and vehicles of vendors, street brokers, in or about which meat, any meat products, fish or other sea food, dairy products, vegetables, fruits, bakery products, soft drinks, candy or confectionery or other provisions are kept, made, held, prepared or carried for sale or distribution as food or drink intended for human consumption, and to carefully inspect the same and make report of the condition of such places or vehicles to the Superintendent of Health. Notice shall be given where such premises, places or vehicles are found to be in an unclean, unwholesome or unsanitary condition to remedy the same, and, any person, firm or corporation neglecting or refusing to put any such premises, place or vehicles in a clean wholesome or proper sanitary condition within twenty-four hours from the time notice is given by the City Superintendent of Health shall be deemed guilty of a violation of this Ordinance.

Section 11. That from and after the first day of June, 1912, every person, firm or corporation engaging in the business of keeping, maintaining, conducting or operating any store, meat market, butcher stall, shop, stand or business, in the City of Wilmington, for the retail of any fish, game, poultry, or butcher meat, or for the purpose of engaging in the business of keeping, maintaining and conducting any hotel, restaurant, lunch room, or other public eating room, bakery, soft drink stand, ice cream factory or parlor, canning factory or place from which milk is bottled or sold, shall first file with the Superintendent of Health of the City a written application to the Council for a license which application shall state the name of the applicant, his place of residence, and the place for which he or they desire a license to carry on such business. The said Superintendent of Health shall thereupon examine or cause to be examined the sanitary condition of the place proposed to be licensed, and shall present such application to the Council together with a statement of the sanitary conditions of the place proposed to be licensed. Such license shall be issued by the City Clerk and Treasurer only when authorized and directed by the Council so to do, and upon the payment of such license tax as may be provided therefor by ordinance. Each such license shall authorize the licensee named therein to carry on such business only at the place stated in such license, and each licensee shall keep his license conspicuously posted in the market, store, stall, shop, stand or other place of business for which the same is issued. Any license issued hereunder may be revoked by the Council upon satisfactory evidence that the holder thereof disregards the sanitary regulations of the City or persistently violates the laws of the State in the maintenance of his place.

Section 12. Any person, firm or corporation violating any provision of this ordinance, in addition to the penalties hereinbefore imposed, shall be subject to a penalty of Twenty-five Dollars for each and every such offence.

Section 13. All ordinances in conflict herewith are hereby repealed.

Section 14. That this Ordinance shall go into force and be in effect from and after the 1st day of June, 1912.

STATE K. OF C. MEETING

Convention to Be Held In Wilmington May 14th

Yesterday's Charlotte Observer says: "The annual State convention of the Knights of Columbus will be held in Wilmington Tuesday, May 14th. Charlotte council will send a delegation which will go down on the morning of May 12th to participate in a big decree meeting that is to be held with Wilmington council that night. They will remain over for the State meeting the Tuesday following. Delegations will also be in attendance from Asheville, Greensboro and Raleigh. At this State meeting in Wilmington final plans will be perfected for the pilgrimage to Washington June 8th, for the unveiling of the memorial erected by Congress to Christopher Columbus, the discoverer of America, and after whom the order was named."

What Texans Admire

is hearty, vigorous life, according to Hugh Tallman, of San Antonio. "We find," he writes, "that Dr. King's New Life Pills surely put new life and energy into a person. Wife and I believe they are the best made." Excellent for stomach, liver or kidney troubles. 20 cents at R. R. Bellamy's.

Rehder's May Sale started Monday with a rush and has continued. Why? The answer is on account of the great values. Rehder always gives values. **

SOCIAL & PERSONAL

The regular monthly meeting of the Ladies' Concordia Society will be held this afternoon at 4:30 o'clock, at the rooms of the Harmony Circle. Members are urged to be in attendance promptly.

* * *

Mrs. George H. Rogers will give a lawn party at her residence at Sea Gate Thursday night, May 2nd, for the benefit of the Sea Gate Baptist church. Oysters, ice cream, cake and other refreshments will be on sale, and a very enjoyable evening is promised all who attend. The public is cordially invited.

PERSONAL PARAGRAPHS.

—Mr. M. D. Felton, of Council's, was among yesterday's business visitors to the city.

—Senator Geo. H. Bellamy, of Brunswick, was in the city yesterday on a business trip.

—Mr. Henry Elliott, a prominent contractor and builder of Hickory, N. C., was in the city yesterday on his way home from a business trip to Columbia, S. C.

—Hon. N. A. Sinclair, solicitor of the Seventh Judicial district, was in the city yesterday, leaving yesterday morning for a professional trip to New York city.

—Among yesterday's guests at The Orton were W. A. Scott, Charlotte; A. W. Jenkins, Fair Bluff; J. J. Wootten, Charlotte; J. H. Kluick, Charlotte; P. B. Beard, W. L. Meek, Louisburg; J. W. Carter, Maxton.

CONTAINS NEW FEATURES

Postoffice Bill As Agreed Upon Has Novel Provisions

Washington, April 30.—The perfected postoffice appropriation bill as agreed upon after a session of the House which lasted until 7:50 tonight, contained several new features of legislation advocated by the Democrats. One was an abrogation of the rule, described by Democrats as a "gag" rule, which prevented Federal employes in the postal service from complaining to Congress of their treatment.

The bill also contains a provision which would compel newspapers, magazines and other periodicals to publish the names of their managing editors and stockholders who own stock valued at more than $550. The Barnhardt bill also provides that editorial or reading matter for which money has been received, must be labeled "advertisement."

A compromise on the parcel post and express provisions, occupied most of the time of debate. These questions were given to a committee of three Senators and three representatives for study and to report to the next session of Congress.

In the meantime a rural route parcel service is provided. Its rates are five cents for the first pound and one cent for each additional pound up to 11 pounds. All of this mail matter is confined to rural route service.

A general parcel post service of 12 cents a pound for 11 pounds is contained in the bill.

A proposal by Representative Roddenberry, of Georgia, to prevent the circulation of newspapers containing liquor advertisements in dry territory was defeated.

A. P. CALDWELL MAYOR.

Lumberton Primaries—Act of Vandalism—Mr. McNeill Stricken.

(Special Star Telegram.)

Lumberton, N. C., April 30.—The town primary passed off quietly today. There were only two candidates running for mayor and while the friends of both worked hard for their favorites, there was no disorder to amount to anything. A. P. Caldwell was nominated for mayor, defeating W. O. Thompson by nine majority. J. D. Proctor, D. P. Walters and C. B. Redmond were elected commissioners.

One of the most contemptible acts of vandalism that has ever occurred in this county was perpetrated in the county clerk's office today while the clerk had stepped into another office for a few minutess. A judgment against W. H. Inman in favor of Dr. N. A. Thompson for $145 was cut from the judgment docket with a knife. The book had been left open on a desk just at the page where the judgment was recorded. Clerk Skipper has sufficient evidence to convict. The county is over a hundred years old and this is the first crime of the kind ever known to be perpetrated.

Mr. E. D. McNeill, one of Lumberton's oldest and most highly esteemed citizens, suffered a stroke of paralysis this afternoon and while there is thought to be slight improvement tonight, his condition is causing much anxiety. This is the second stroke within a year or two.

PORT PARAGRAPHS.

British Steamer and Schooner Clear. Tug Albatross Leaves.

The British steamer Malinche, Capt. Jameson, cleared light yesterday for Jacksonville; vessel by Alexander Sprunt & Son.

The British schooner A. B. Barteaux, Capt. Barteaux, cleared light yesterday for Crandall, Fla.; vessel by Maffitt & Wood.

The tug Albatross cleared yesterday for New York towing barge Monacacy, from the bar, where it was towed from Charleston.

Death of Miss Pickard.

Friends of Miss Grace Pickard will regret to learn of her death in Charlotte at 12 o'clock last midnight. She formerly resided here with her mother and has relatives and friends in Wilmington. Arrangements for the funeral will be made later.

The Demons of the Swamp

are mosquitoes. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell, of Lucama, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50cts. at R. R. Bellamy's.

LOCAL DOTS.

—The police blotter shows 187 arrests in April, as compared to 228 in March of this year and 140 in the month of April, 1911.

—Cornelius Lofton and Harry Mashburn, both colored, submitted to charges of trespass in Justice Harriss' court yesterday and judgment was suspended on payment of the cost.

—The books at the office of the Register of Deeds show that 48 marriage licenses were issued for the month of April. This number was evenly divided between white and colored people, 24 of each having been issued.

—Geo. Edwards, colored, charged with an assault on his wife, was given hearing before Justice Harriss yesterday and probable cause not being found, was declared not guilty. Mary Edwards, the prosecutrix, was taxed with the costs in the action.

—The Wilmington delegation to the Great Council of the Improved Order of Red Men, whichh meets in Shelby this year, left Monday night. In the party were Mr. E. H. P. Strunck, great keeper of wampum; Mr. Wm. Sheehan representing Eyoto Tribe, No. 5, and Mr. W. H. Lane, representing Cherokee Tribe, No. 9.

—Dredge No. 9, of the Bowers Southern Dredging Company, will complete its contract on the Cape Fear river this week, and will then be transferred to Jacksonville, Fla., to begin a new contract. It has been stationed on the Cape Fear since December 15th, 1910, and has moved about 2,000,000 cubic yards of material.

WILL BE NO AUCTION SALE.

Carolina Heights Lots Will be Sold Privately to Purchasers.

Through an error in the preparation of the copy for the Carolina Heights sale of lots in yesterday's paper, it was made to appear that there would be an auction sale of the lots on May 15th, when the owner intended to convey no such impression. The lots will be sold at private sale beginning May 15th, and purchasers would do well to look over the property and be ready at that time. With the building of the splendid new boulevard around the National cemetery by the government, this property will be easily doubled in attractiveness and in actual values.

Band Concert Success.

The concert of the Cape Fear Independent Band, given at its hall at Fifth and Castle streets last night, was a marked success in every particular and was thoroughly enjoyed by the large number of friends present. The music, furnished by the band, was especially pleasing, and added much to the pleasure of the evening. Another enjoyable feature was the delightful refreshments served. In the ballot to determine the most popular young lady present Miss Olivia Bell Hewlett received the largest number of votes and was awarded the handsome handbag offered as a prize. The gathering broke up at a late hour and the guests departed declaring that they had spent a delightful evening. A tidy sum was realized for the benefit of the band.

Mr. George Ward Out Again

The many friends of Mr. Geo. H. Ward are glad to see him on the streets again after having been confined to his home since early in March, when he suffered a stroke of paralysis. He was quite ill for a time, but is now improving very rapidly and expects soon to take up his work. He will probably accept a position as health officer at Wrightsville Beach, where he has proved himself very efficient in that capacity heretofore.

PENDER SIMMONS CLUB.

Enthusiastic Meeting Last Night—Address by J. O. Carr, Esq.

(By Long Distance Telephone.)

Burgaw, N. C., April 30.—An enthusiastic meeting of the Simmons Democratic Club of Pender county was held here tonight and a large number of new enrollments were received, bringing the membership up to more than 600. Encouraging reports were received from every part of the county and Pender will do her full duty by Senator Simmons in November.

The following additional vice presidents were named at the meeting tonight: J. S. Devane, J. M. Marshall, W. H. Lewis, J. R. Norris, C. P. Moore, T. J. Brown, W. H. Wells, R. T. Rivenbark, W. W. Larkins, J. B. Scott, W. D. Malpass and W. R. Walker.

The feature of the meeting tonight was an inspiring address by Hon. J. O. Carr, of the Wilmington bar, who was at his best and spoke for an hour and a half, which seemed like not more than 20 minutes to his enthusiastic audience. Mr. Carr had a big subject and was filled with it. The Senior Senator from North Carolina has no more able exponent in the State than he, according to his splendid address tonight, which was much appreciated by his friends in Pender, of whom there are a great number.

HOT FIGHT IN GEORGIA.

First Presidential Preference Primary Will be Held Today.

Atlanta, Ga., April 30.—Georgia's first Presidential preference primary will be held tomorrow, bringing to a close one of the hottest campaigns ever waged in this State outside of gubernatorial contests. The fight is generally acknowledged to be between Woodrow Wilson and Oscar Underwood, but the names of Champ Clark and Judson Harmon also will appear on the ballot. A blank space will be left for the insertion of any other name the voter may prefer.

Underwood and Wilson headquarters have been in operation in the larger cities of the State for several weeks and every county has been literally covered with literature bearing on the merits of the respective candidates.

Polls in the country districts will close at 3 o'clock in the afternoon, but voting in the cities will continue until 7 o'clock. The ballot is simple and the count is expected to be practically complete before midnight. Indications are for fair, warm weather throughout the State, which is expected to bring out a large vote.

"Just Like A Woman"

Would you call it Capriciousness? At the Grand Theatre today and tonight. **

Special today—ladies' short kimonas, the 25c kind, only 10c at Rehder's May Sale. **

FLY CAMPAIGN BEGINS TODAY

Sorosis and Health Department to Wage One Month's War on the Pest—Aid of the Children Enlisted

"Swat the fly!"

The close season on flys in this city is now off and every patriotic citizen is expected to do his duty in the campaign for the extermination of the pests. No matter where you see the fly swat him and swat him hard. If perchance his is wandering in circles over the shiny bald pate of the elderly gentleman on the seat in front of you at the picture show do not let the opportunity slip by, but swat the fly. Any weapon from a baseball bat down to the bare hand is allowed, just so the fly is swatted. When he drops in your soup plate at the dinner table clasp your spoon firmly in your hand and gracefully deal him a death blow while the golden moment lasts.

Under the joint auspices of Sorosis and the city health department a campaign against the winged pests will begin this morning bright and early to continue through the month of May, and with the aid of the children who have been enlisted in the fight it is expected that by June 1st much will have been accomplished toward rendering Wilmington a flyless city.

Sorosis is offering prizes to the children catching the most flies and many children all over the city have already signified their intention of competing for the prizes. The list of prizes and the rules regulating the contest were announced yesterday by Sorosis. The conditions of the contest are simple and easy to remember. They are as follows:

Prizes and Conditions

First Prize; for the largest number of quarts over ten quarts of flies caught $5.00

Second Prize; for the most effective original fly-trap.....$5.00

Third Prize; for the largest number of quarts over five quarts..$3.00

Five prizes of $1 each for next largest number of flies caught..$5.00

Ten cents per quart will be paid to each contestant for first one hundred quarts brought in.

Contest will open Wednesday, May 1st, and close at 6 P. M., Saturday, June 1st.

Entrants must be children (white) under 16 years of age.

Flies must be delivered after being killed between 5 and 6 o'clock Wednesday and Saturday afternoons and Saturday, June 1st, at the Health Office at City Hall.

Flies must be delivered in handy past board boxes with the name, age and address of contestant carefully and plainly written on each box.

The flies will be measured at the Health Office under the direction of Dr. Chas. Nesbitt and a record of same kept at the office.

Flies caught on sticky paper cannot be counted and will not be accepted but they may be caught in traps, 'Swatted" or poisoned and exterminated by drowning, the use of sulphur fumes or other means.

Not less than one pint of flies will be received at the health department.

An organization that is expected to accomplish much in the campaign for the extermination of the fly is the Boy Scouts. The pledge of the order binds each member to never lose an opportunity to accomplish a "good turn," whether it be for the individual or the people collectively. The campaign against the fly offers the boys an opportunity of doing the city one of the greatest "good turns" possible and the young fellows have entered enthusiastically into the idea. The organization has quite a large membership in Wilmington and it will be able to wage an efficent fight for a flyless city.

The campaign of education which has been going on for so long has convinced the people that the fly is one of their greatest enemies and they are ready and willing to do all in their power against the pest in the city. The campaign will undoubtedly be a marked success here and will mean much in the ultimate good resulting from it.

CARGO LUMBER ATTACHED.

Suit Started Yesterday in Superior Court—Claim of $1,000.

Suit was started in the Superior Court yesterday by the J. C. Pretlow Lumber Company, of Pender county, against the Wiley Harker Lumber Company, of New York, for a claim of $1,000, alleged to be due on a cargo of lumber now being loaded on the schooner Nellie W. Craig, at this port. Attachment proceedings were brought against the cargo of lumber and Deputy Sheriff John Branch served the papers yesterday afternoon at 3:15. Deputy Sheriff Brown was put aboard the schooner to guard the cargo until the matter is settled or the defendant furnishes the bond necessary to release the lumber. Kenan & Stacy represent the plaintiff.

THERE IS A DIFFERENCE

Between Promises and Actual Results.

Promises won't overcome hair trouble. The manufacturers of Newbro's Herpicide promise nothing which is not justified by an intelligent use of this preparation. The desired end ultimately becomes an accomplished fact. This is the reason that Herpicide has thousands of satisfied friends all over the world.

By keeping the scalp clean and healthy and destroying the dandruff germ, Newbro's Herpicide makes beautiful hair. Herpicide prevents the hair from falling and allows it to grow unhindered and naturally except in cases of chronic baldness which is incurable.

One dollar size bottles are guaranteed by all druggists to do these things.

Send 10c in postage for sample and book to The Herpicide Co., Dept. R., Detroit, Mich.

Applications obtained at the best barber shops.

ROBERT R. BELLAMY, Special Agt.

..Theatrical..

The Summer Stock at the Academy of Music made still another conquest last night, the Mason and Street Company repeating the fine bill, "The Duke's Daughter," presented in conjunction with a fine moving picture programme and delightful numbers by a full orchestra. It can truly be said that the Summer Stock is proving popular.

Tonight rolls around, a change of play and one of the best and one of the newest will be offered. The well-known success, "The Best Man Wins," will be offered and it will be given a strong presentation by an excellent cast. The piece is a fine comedy drama, which means that both the dramatic spirit and that of fun within a person will be catered to. A charming evening may be expected. The moving pictures will, of course, be changed. In fact, they are changed nightly, the Academy having made a contract for one of the best film services. There will also be new orchestral music tonight, thus adding to the pleasure of the occasion. Of course, the same low prices, 10 and 20 cents, with only twelve rows of seats in the entire theatre at the higher price, will prevail.

The company will also today offer its regular mid-week matinee, and the matinees are proving "winners" with the ladies and children. The admission will be 5 cents for children and 10 cents for adults.

At The Grand Theatre

The Grand Theatre will offer a Biograph and a Selig as the feature films for this afternoon and evening. The Biograph is "Just Like A Woman," or "Would you call it Capriciousness?" The story is that of a fortune hunter and the daughters of an apparently wealthy widow. It is found that certain oil stocks are worthless after the widow's husband's death. The love story is sweet and refreshing and is well told in the high-class film. The Selig is "The Hand of Fate," an exciting tale of international romance, intrigue and daring. A member of the German nobility becomes infatuated with and marries Stella, the pretty dark-haired Gypsy maid and she is sworn to secrecy on account of the difference in their relative social standing. She is showered with gifts and she reads his palm, warning him of a blonde who is to come later in his life. She is a high society gambler and when she does come into his life, there is all the romance and sensational situations that lend themselves excellently to the moving picture drama.

THE RECORDER'S COURT.

Cases of Minor Importance Constituted Docket Yesterday.

In the Recorder's court yesterday presided over by Deputy Recorder Geo. Harriss, a number of cases of more or less importance were disposed of, none of them, however, being of any unusual interest. Joe Merritt, colored, was found guilty of an assault on a female and a fine of $25 and costs was imposed, judgment to be suspended, however, on payment of the costs on condition that if the defendant comes before the court again on a charge of beating his wife the judgment will be prayed.

Jessie Jewett and Carrie Larkins, both colored, were charged with running a disorderly house. Both submitted to a charge of disorderly conduct and were sentenced to 30 days each on the county farm, judgment being suspended on payment of the costs, conditional upon the women not appearing before the court again on a similar charge.

Ernest Dove, colored, evidently not a "dove" of peace, was found guilty of carrying a concealed weapon, a revolver, upon his person, and was fined $25 and costs. Judgment was also suspended in this case on the payment of costs conditional upon the defendant not appearing before the court on a similar charge.

Lessey McNeil, colored, charged with fraud in beating her board bill, was found not guilty and the case was dismissed. The case came up from the court of Justice J. W. Smith.

MONTH'S BANK CLEARINGS.

Very Satisfactory Progress in Operations During April Shown.

Secretary Thos. E. Cooper, of the Wilmington Clearing House Association, at the close of business yesterday completed the compilation of the bank clearings at Wilmington for the month of April just ended, showing very satisfactory gains over previous similar records.

The clearings for April, 1912, were $3,484,370.07 against only $2,988,283.42 for the same month last year. This is a gain for this year of nerly half a million dollars, or to be more exact, a gain of $496,086.65, while the gain over the same month in 1910, is $1,084,740.15. The gain over March, 1912, the month immediately preceding, is $93,103.95. These figures indicate a very healthy business condition and that the banks of Wilmington are continuing to do their share of financing this section of the State.

"The Hand of Fate"

An exciting tale of international romance, intrigue and daring. At the Grand Theatre today. **

$25 Axminster Art Squares during the Polvogt May Sale for $19.50. Come today. **

REAL ESTATE TRANSFERS.

Quite a Number of Deeds Were Filed for Record Yesterday.

Real Estate continues active and quite a number of deeds were filed for record yesterday, among them being the following: Edward A. King and wife to Geo. W. Trask, for $4,000 and other considerations, lot on Orange, 75 feet east of Eighth street, 37 1-2x 99 feet in size; T. F. Boyd and wife to Fidelity Investment & Development Company, for $5,000 and other considerations, tract on east side of Cape Fear river, near Greenfield creek, containing 402 acres; H. W. Konig and wife to Samuel M. Jones, for $400 and other considerations, lot on northwest corner of Taylor and McRae streets, 60x75 feet in size; Wm. E. Perdew and wife to John G. Kuhlken and wife, for $100 and other considerations, lot on Grace, 102 feet and seven inches west of McRae street, 40x132 feet in size; J. Irving Bear to C. C. Chadbourn, for $100 and other considerations, lot on Market, 120 feet east of 13th street, 30x150 feet in size; Solomon Sternberger and others to C. C. Chadbourn, for $100 and other considerations, lot on Market, 120 feet west of 14th street, 60x150 feet in size.

For the month of April, closing yesterday, a total of 142 deeds were filed for record in this county, the largest amount in any single deed being $62,000.

Funeral of Mr. Joel Farrow

The funeral of the late Mr. Joel Farrow was held from the family residence, No. 314 Meares street, Monday afternoon at 3 o'clock. Rev. J. P. King, pastor of the Sixth Street Advent Christian church, conducted the services, which were attended by a number of sorrowing relatives and friends. Interment was in Bellevue cemetery. The pallbearers were: Messrs. Geo. McMillan, Alex. Leslie, James Temple and Thos. Hodges.

Motherhood

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

Fighting the Right Plague

Kill the Catarrh Germs and the White Plague Problem Is More Than Half Solved.

Consumption is caused by germs; so is Catarrh.

People who have catarrh are liable to become victims of dread consumption.

The reason is very simple. Germs of consumption, no matter how vicious, can make little headway when the membrane of the nose, throat and bronchial tubes is in a healthy condition.

When, however, the membrane is raw, sore and inflamed because of catarrh and the ravages of devilish catarrh microbes, the germs of consumption can easily and quickly find a home to their liking and thus begins thousands of cases of consumption. It starts with a cough and ends in a coffin.

Get rid of catarrh, if you have it, and you can get rid of it if you will breathe HYOMEI, a soothing healing antiseptic air that reaches the nose and throat and goes clear into the air cells of the lungs, where it destroys catarrh germs and cures catarrh.

Sprays, douches, snuffs, ointments and stomach dosing won't cure catarrh. You've got to get where the germs are before you can kill them, and HYOMEI gets there while all other treatments fail.

Delays only invite needless danger; get a HYOMEI outfit today at any good drug store for $1.00. If you already own a HYOMEI inhaler, you can get a bottle of HYOMEI for only 50 cents.

R. R. Bellamy guarantees it.

COTTON WENT DOWN THEN UP

After Making New Low Ground for the Movement, the Market Firmed Up on Predictions of Unsettled Weather.

New York, April 30.—After making new low ground for the movement during today's early trading, the cotton market firmed up on predictions for unsettled weather and bullish acreage reports, with the close very steady at a net advance of from 9 to 12 points. The opening was steady, at an advance of 4@7 points, on better cables, but the market almost immediately weakened under a renewal of yesterday's selling movement. Stop orders were uncovered on a scale down, and inside the first hour prices sold off to a net loss of from 6 to 7 points on the active months. This break carried July off to 11.22 and October to 11.32.

The selling appeared to relieve the market of the pressure of long cotton to some extent. At any rate prices steadied and during the balance of the day showed a considerably firmer tone on the Western belt forecast for unsettled weather, with showers, a private acreage report indicating a reduction of about 7.6 per cent, covering of shorts and scattered buying for long account. Closing prices were within a point or two of the best. Generally fair weather was forecast for tonight and tomorrow in the Eastern belt. The official prediction for the Western belt suggested that the low area would move east Wednesday and extend its influence far enough South to cause unsettled weather and showers, or rains, over the greater part of the cotton country between now and the end of the week. In addition to the unsettled weather the buying during the afternoon was supposed to have been promoted by a feeling that liquidation of short accounts had been pretty thorough on the recent decline, and that the technical position of the market had consequently strengthened.

Receipts at the ports today, 18,000 bales, against 19,811 last week and 12,395 last year. For the week, 90,000 bales, against 118,168 last week and 71,972 last year. Today's receipts at Galveston, 6,110, against 3,975 last year and at New Orleans, 2,310, against 3,934 last year, and at Houston, 1,803, against 1,150 last year.

Spot closed quiet, 10 points higher. Middling uplands, 11.70; do. gulf, 1.95. Sales, 300 bales.

Futures closed very steady.

Helps A Judge In Bad Fix

Justice Eli Cherry, of Gillis Mills, Tenn., was plainly worried. A bad sore on his leg had baffled several doctors and long resisted all remedies. "I thought it was a cancer," he wrote. "At last I used Bucklen's Arnica Salve and was completely cured." Cures burns, boils, ulcers, cuts, bruises and piles. 25 cents at R. R. Bellamy's.

To get the best for the least money attend Rehder's May Sale at Fourth street bridge. **

REACTION IN STOCK MARKET

A Variety of Incidents Caused the Day's Business to be Hesitating. Steel Figures Were a Great Surprise.

New York, April 30.—The hesitation and reaction which dominated operations on the stock exchange today were generally attributed to a variety of causes or reasons. Foremost were the Massachusetts primaries, the possibility of another hitch in the negotiations between the railway managers and the engineers, the quarterly statement of the United States Steel Corporation and the government's weekly weather report dealing with crop conditions.

The statement of the Steel Corporation was surprising in its unfavorable character. Not only were earnings and net earnings much below even the most pessimistic estimates, but in order to pay the regular quarterly dividends a deficit of almost $6,300,000 was created. This was taken from the undivided surplus. The statement reflects the many adverse conditions attending the steel industry in the past year.

Steel shares were moderately strong during the greater part of the day. Reading and Lehigh Valley rose and fell alternately, but Baltimore and Ohio was the strongest of the standard railway shares. A number of specialties made smart gains, including National Biscuit and Pacific Telephone. International Harvester, far from being adversely affected, by the filing of the government's dissolution suit, was strong. The entire market was subjected to a series of moderate selling movements in the afternoon, after a period of dullness. Prices yielded easily. Final quotations were generally under yesterday's close.

London was again a seller here, its offerings including Steel, Amalgamated Copper, Canadian Pacific and Union Pacific. Monetary conditions locally were practically unchanged. There was an increased demand for call money.

The bond market was irregular, with a sharp break in Allis-Chalmers 5s. Total sales, par value, $1,888,000. United States Government bonds were heavy, the 3s, coupon, declining ⅜, the 3s, registered, ¼ and the Panama 3s ⅜ on call. Total sales, 667,800 shares.

THE DRY GOODS MARKET.

New York, April 30.—The dry goods markets are quiet and steady. Cotton goods rule generally firm. Jobbers and retailers are doing a light trade in consequence of unreasonable weather.

MAKES SPLENDID RECORD.

Oak Ridge Won Seven Games in a Week and Lost One This Season.

(Special Star Correspondence.)

Oak Ridge, N. C., April 30—The Oak Ridge ball team returned Saturday night from its Western North Carolina trip with a string of consecutive victories.

On Monday it defeated Catawba College, 6 to 0; on Tuesday Rutherford College fell a victim, 12 to 5; Wednesday, Asheville School went down under a load of 15 to 0; Thursday and Friday Bingham bit the dust 11 to 0 and 14 to 5; Saturday, Oak Ridge wound up the season at Hickory, defeating Lenoir College 3 to 1; on Saturday preceding the team defeated Whitsett, with Ray, of the Carolina League, in the box, 2 to 0. So that in seven days Oak Ridge won seven games, four of which were shut-outs.

Oak Ridge suffered but one defeat during the year, and its manager believes that no college team in the South is its superior, and but few, if any, its equal, the team made 88 runs to 19 for its opponents.

SPRING TONICS.

Are not the products of superstition. Like most old customs, there is sound scientific reason underneath.

"That tired feeling" is simply poisoning of the brain and nerves by toxins carried to them in the blood. Spring is nature's time for renewing everything—it is time to purify and renew your blood.

Get your blood right—that is all the tonic you need. There is just one blood preparation that will give you this triple guarantee: Guaranteed to benefit or money refunded; Guaranteed to contain no alcohol: Guaranteed under the pure food law. No dangerous drugs of any sort. The name is MILAM. Buy six bottles for $5.00—your money back if not benefitted. Ask your druggist.

Ladies' $4.00 rain coats for $2.75 during the Polvogt Company's May Sale. **

REPUBLIC STAGGARD TREAD TIRES

will not skid. The six rows of solid rubber studs resist any motion at a tangent from the straight course. They grip muddy roads and wet pavements, doing away with the extra cost and trouble of chains and other anti-skid devices.

Tire Service

Republic Staggard Tread Tires give twice the service of the ordinary tire, because the solid rubber studs give an extra heavy wearing surface.

Our Free Booklet

entitled "The Tire Perfect" contains much valuable information on the use and selection of tires. Sent Free

WHITE STAR LINER HELD BACK NEWS

(Continued from Page One.)

it is now we will have to cut down the number of passengers."

Mr. Ismay told of the great field of icebergs that greeted those in the boats when dawn broke. He said he did not see the steamer Californian. Senator Smith then asked him pointedly what he did after he boarded the Carpathia.

"I understand that my conduct on board the Carpathia has been severely criticised," said Mr. Ismay. "I court the fullest inquiry at the hands of the committee. The facts in the case were these: 'When I went aboard I was standing with my back against a bulkhead when some one came to me and said: Go into the saloon and have a bite of something hot or a drink. He repeated it twice, but I told him I would be happier if I could get off by myself. He took me by the arm and led me to a room, which proved to be the doctor's room. I was not out of there until the Carpathia docked. I was ill and ate no solid food on the run into New York.'

"The doctor did not have a suite of apartments on the ship. He had this one small room which he slept in himself. People were coming and going through this room all the time."

"What can you say, Mr. Ismay, as to the treatment you have been accorded by this committee?"

"I have no criticism whatever to offer," said Mr. Ismay. "I was naturally disappointed, not being permitted to go home, but I suppose you had good reason for keeping me here."

"Don't you think now that such was the wisest course?"

"Yes, I think it was."

"Do you know of any criticism that can be made of the officers and the crew of the Titanic?"

"None whatever."

Mr. Smith then said he put into the record copies of letters passed between himself and Mr. Ismay relating to the holding of Mr. Ismay. Mr. Ismay then said that he would return to this country at any time the committee might want him and that an information the committe might want would be at its disposal.

Mr. Ismay then was excused, after Senator Smith had thanked him for his testimony.

"I plan to sail for England on the Adriatic," said Mr. Ismay. Asked about subpoenas in damage suits, Mr. Ismay said he would be in this country in a few weeks and that his attorneys would keep in touch with all legal affairs growing out of the catastrophe.

After hearing testimony of a number of passengers, the committee adjourned until Friday morning.

Contempt Proceedings

Washington, April 30.—Contempt of court proceedings against J. Bruce Ismay, president of the International Mercantile Marine; Joseph G. Boxhall and Charles Lightoller, surviving officers of the lost Titanic, may be one of the first developments in a civil action begun here today to recover for a victim of the disaster. The three men left the city and went to New York, ignoring summonses issued by the District Supreme Court directing them to appear before a referee and testify in an action brought by Mrs. Louise Robins, of New York, the widow of Colonel John Jacob Astor's valet who was lost with the ship. The action is an unusual one i equity to preserve the testimony of the officers for a suit which may be filed later, when they may be without the jurisdiction of a United States Court.

Ismay, Boxhall and Lightoller accepted service from a United States marshal, and after a conference with attorneys boarded a train for New York. The hearing which was awaiting their arrival, was abandoned.

Attorneys for Mrs. Robins say they will ask the court for attachments to arrest the men in New York and return to Washington to give testimony. Contempt proceedings against the attorneys who advised them are threatened. Subpoenas also were issued for Frederick Fleet, the Titanic's lookout, and Harold Bride, one of her wireless operators.

REWARD FOR KINDNESS

Miss Dorothy Bateman Is Left $500,000 By Ross Winans

Baltimore, April 30.—Miss Dorothy Bateman, of Newport, R. I., is left $500,000 by the codicil to the will filed today of Ross Winans, of this city, who died recently.

Miss Bateman is the daughter of a Newport hotel keeper at whose house Mr. Winans spent last Summer. He was in poor health and she is said to have won his regard by her kindness and attention to him.

The heirs of residue of the estate estimated at $4,000,000 are R. W. Whistler, a brother-in-law, and Geo. Revillon, step-brother of Mr. Winan's mother.

His son, Thomas George Winan, who married a Spanish dancer and with whom the father was estranged because of the marriage, was left $200,000 in trust.

Harrisburg, Pa., April 30.—The Roosevelt faction, which is to control the Republican convention here tomorrow, plans a progressive ticket from top to bottom. There were rumors of promises and trades on the various candidates to be selected, but the Roosevelt leaders declared tonight that their delegates will name the entire ticket. The regular Republican organization under the leadership of United States Senator Penrose, concede that the Roosevelt faction will name the 12 delegates at large.

Cincinnati, O., April 30.—Charging 17 violations of the hours of service law, United States District Attorney McPherson filed suit in the United States District Court here today against the Chesapeake and Ohio Railroad of Indiana, for penalties aggregating $8,500.

SIMMONS OPENS TARIFF FIGHT

(Continued From Page 1.)

for non-action. There was then no such contention, but now, when it is sought to remove the tariff for the advantage of the people and not to suit the interests, the opponents of reduction, including the President, set up the pretense that it is dangerous to act without the advice of the board. This contention is not made by Republican Senators who, though protectionists, are demanding reductions according to the Republican platform, but only by that wing of that party that was responsible for the sham revision of 1909.

"But, while I deny that Congress stands in need of any Tariff Board information as a basis of safe action, I submit that there is less need for such information in the case of the metal schedule than any other, because the world prices of metals have been standardized and because of the many investigations and reports that have been made with respect to prices and wages by the different bureaus of the government and by official as well as non-official experts, affording exceptionally full information, and we have elaborate reports on this subject of the British, German and American steel associations—the report of Mr. Pepper, special agent of the Department of Commerce and Labor, who made an investigation of the German and of the English iron and steel industry, and the report of the Bureau of Manufactures and Labor, and the publications of the Geological Survey, and the customs statistics—and the sworn testimony of numerous experts in the trade, given before legislative committees of both branches of Congress.

Not Framed on Protective Lines.

The author of this bill did not recognize the obligation or right of the government to guarantee to the industries of the country a satisfactory, or a reasonable, or any kind of profit.

"Its purpose is not to protect dealers or producers in their profits by stifling competition, not to raise revenue, and, to this end it prescribes rates that will allow reasonable competition.

"If there are no importations, there will be no revenue—if the duties are excessively low, there will be importations, but the government will realize but little revenue. If the duties are excessively high, there will be no importations and no revenue. The need of revenue is great, and to raise this large amount of money, the duties must be fixed on a high revenue producing basis.

"The average rate in this bill is 22 per cent. as against 35 per cent. under existing laws. In fixing duties while we should be mindful of the facts as to foreign competition and so adjust them that they may incidentally safeguard the American producer and enable him on a basis of fair prices to reasonably dominate the domestic market, it should not be forgotten that the primary purpose of taxation is to raise revenue. This bill is framed along these lines.

Objections by Opponents of Bill.

"Outside of the objections I have mentioned, the only ground of opposition I have heard, to this bill, is the contention that on account of our high wage scale we cannot compete with foreign producers under its lower rates.

"Some of the manuafcturers who appeared before the Finance Committee did not contend against any reduction, but protested that the cut was too great; but most of them contended for the present rates, and practically all based their opposition on the lower labor cost abroad and insisted that the proposed rates were not sufficiently high.

"In answer to this contention I will attempt to prove. First: That steel and iron and their manufactures are produced here as cheaply as anywhere else in the world. Second: That the actual labor cost is no greater here than abroad, and, if there is any such difference, the duties in this bill more than cover that difference—being in some instances more than the entire labor cost.

"3. That the producers are making abnormally high profits to the great wrong and injury of the American consumer—and that their laborers do not share in these superadded profits, but are in a large part both underpaid and underfed.

"4. That our manufactures are now competing, upon the basis of fair profits, with the world, and that under this bill they will be able to continue to dominate this market with a high basis of profit.

"5. That the rates, while potentially competitive, will only to a reasonable extent increase the opportunity of foreign competition—probably not more than one-half of one per cent—and that there is not the slightest foundation for the claim that the country will be flooded with foreign goods, and the domestic industry destroyed.

"Finally, I shall contend that these reductions are demanded not only in the interest of the consumer, but for the expansion of our international trade, a consideration of primary importance if our industrial expansion is to attain to the potentialities of American genius, capacity, opportunity and advantage.

"The domestic production of commodities covered by this bill amounts to two and a half billions of dollars, the bulkier articles, amount to one billion and a half—about three-fifths of the whole. On account of the heavy cost of transportation of these bulky articles, the zone of foreign competition under free trade would be very limited. Under any tariff, potential competition in them would be confined possibly to a radius of 50 to 75 miles of our seaports.

"Present duties admit of slight competition as is shown by the fact that there was imported last year $20,000,000 worth of these products. The zone of competition will probably be extended to the extent that the remitted duty will pay the cost of transportation.

"Importation of commodities embraced in this bill last year were about $60,000,000, and it is estimated that the proposed reductions will bring in an increase of about $10,000,000.

"While the proposed reduction in duties is moderate and the increased imports will be small, it is believed that the increased opportunity for outside competition will tend to break the trust combination which now exists in this industry.

"In opposing this moderate reduction, the representatives of this industry show that what they want is not protection, but inhibition."

Mr. President—I cannot understand in the face of the fact, admitted of all men, that our manufacturers are selling annually nearly a billion dollars' worth of their products of all kinds in nearly every quarter of the globe—in Asia, in Africa, in Europe, in South and North America, in competition with the world, and that profits are so satisfactory that this trade is eagerly sought by them; I cannot understand, in the face of the fact that our manufacturers of iron and steel sold to Canada last year more than four times as much of these products as Great Britain, notwithstanding Great Britain has a preferential tariff advantage over us, of 35 per cent.; in face of the fact that in 1910 we sold of steel rails to Mexico, where we have no advantage over our competitors, either in tariff or freight rates, products of iron and steel, including farming implements, carriages, etc., twice as much as England, Germany and Belgium, combined; in face of the fact that last year we sold to the world at large $10,000,000 as against England's $12,000,000, Germany's $13,000,000, and that, leaving out the contiguous or approximately contiguous countries of Europe, where the European manufacturer has a freight advantage over us, and leaving out the dependencies of our European competitor, where, for various reasons they have an advantage over us, we sold in the neutral markets of the world where trade conditions are equal, nearly as many steel rails as all the balance of the world; in face of the fact that we are able to meet our competitors in South America, where certainly we have no advantage either in tariff or freight rate over our European competitors, that in the neutral markets of the world, where we have no advantage in either tariff or freight rates, markets which until recently our competitors have dominated, markets in which they have better bank exchange arrangements than we have, markets in which by reason of long possession they understand the habits, the customs, the tastes of the people better than us, and cater to them to an extent that we have not learned; I say I cannot understand, if, in the face of these facts, we are able to meet these competitors in those markets upon the basis of fair profits, why we are not able to meet them upon the same basis in our own country with our customers at our doors, and where both tariff and freight rates are in our favor.

Mr. President—Our manufacturing industries are fairly well organized. I am not now referring to the trust combinations, but to business organizations. I say they are fairly well organized and through their various organizations they make themselves heard whenever their interest is involved in any way in legislation. They are never forgotten. Speaking with reference to our population as a whole, they may be said to represent the thousands, but the consumers who represent the millions are too numerous for organization. They have no committees. When legislation affecting their interest is pending the consumers have no direct personal representative or voice here. As a result, in our tariff legislation in recent years, while the interest of the industries have been carefully safeguarded, protected and often unduly promoted, th interest of the consumer has been too largely overlooked and forgotten.

The Democratic party, Mr. President, while not forgetful of the interest of these great industries, which have contributed so largely to the greatness, the wealth and the prosperity of the nation, does not forget the absent consumer, however humble, the authors of this bill in the other House, mindful of the great fundamental Democratic principle of equality, while not forgetting the seller and his interest, have not forgotten the buyer and his interest, as well.

HOT FIGHT IN BAY STATE PRIMARIES

(Continued from Page One.)

was far more jubilation than among those who assembled to look over returns compiled by the Taft leaders.

About one-third of the State closed its polls at 4 o'clock, or earlier, and by 9 or 10 o'clock these returns were well in hand. As the remainder of the State did not cease voting until from 8 to 8:30 o'clock, there was a four-hour lull in tabulation of the returns.

Boston, Mass., April 30.—Returns in the Presidential primaries today from 336 out of 1,080 election precincts, including parts of six cities and 87 towns, out of 33 cities and 320 towns, give:

Republican preferences: LaFollette 360; Roosevelt 23,733; Taft 23,773.

Boston, April 30.—Returns in the Presidential primaries today from 247 out of 1,080 election precincts including 206 out of 207 precincts in Boston, give:

Republican preference: LaFollette 292; Roosevelt 12,000; Taft 12,630. Forty out of 340 small towns outside of Boston give: LaFollette 42; Roosevelt 1,758; Taft 1,618.

Boston. Mass., April 30.—Returns in the Presidential primaries today from 120 out of 207 election precincts in Boston give: Republican preferences: LaFollette 146; Roosevelt 6,375; Taft 6,450.

Democratic preferences: Clark 7,274; Wilson 3,248.

Boston, April 30.—Returns from 253 out of 1,080 election precincts including 206 out of 207 precincts in Boston and 40 small towns out or 353 cities and towns give: Democratic preferences: Clark 14,123; Wilson 6,038.

Boston, April 30.—Returns from 471 out of 1,080 election precincts give: Republican preferences: LaFollette 663; Roosevelt 25,451; Taft 25,215. Democratic preferences: Clark 16,819; Wilson 7,511.

Boston, April 30.—Returns in the Presidential primaries in 550 out of 1,080 election precincts give: Republican preferences: LaFollette 766; Roosevelt 29,894; Taft 30,035. Democrats: Clark 19,706; Wilson 8,597.

Washington, April 30.—Representative Clayton, of Ala., chairman of the Judiciary Committee, introduced a House joint resolution today to provide an amendment to the constitution fixing the term of office of President of the United States at six years and making him ineligible for a second term. He said one of the reasons he proposed this resolution was President Taft's declaration in Massachusetts yesterday that a President should not be eligible for re-election.

DISASTER'S CLOSING CHAPTER

(Continued from Page One.)

had but faint hope of finding the body of his brother-in-law, Henry B. Harris, the theatrical man. Nevertheless, he will remain here until he has exhausted every means in his power to recover it.

Additional Bodies Found.

New York, April 30.—The White Star Line made public today a wireless telegram from the Western Union Cable ship Minia, now searching for bodies on the scene of the Titanic disaster. The message, dated last midnight, reads:

"If bodies afloat, believe late north gales swept them into gulf stream and carried many miles east. Recovered one body today. Total 14. Two unknown buried at sea and believed on board mostly of crew."

Philadelphia, April 30.—The torpedo boat destroyer Beale was launched at the Cramp ship yard today and christened by Mrs. John P. McLean, of Washington, daughter of Lieutenant Edward Fitzgerald Beale.

Rehder's May Sale started Monday with a rush and has continued. Why? The answer is on account of the great values. Rehder always gives values. **
